Expected To Attend Initial
Clash as Atlanta
Defends Attendance
Record Set Last Year.

JIMMY BRADDOCK IS FIRST BATTER

Atlanta Club, Winner of
1935 Pennant, Is Favor-
ite To Repeat Again
This Year in Southern.

By RALPH MCGILL.
The place is Ponce de Leon park.
The time is 3 o'clock this after-
noon.

The event is the opening of the 35th
consecutive Southern Association base-
ball campaign, with Atlanta, defending
champions, meeting Chattanooga.

Jimmy Braddock, the world's heavy-
weight champion and a first-rate fight-
ing man, will be the first batter. Miss
Eleanor Spaulding, the beautiful young
daughter of Mr. and Mrs. Hughes
Spaulding, of the board of directors,
will pitch the first baseball of the day.

At least 20,000 cheering fans, includ-
ing a thousand or so from Chat-
tanooga, will be in the stands at game
time. The Atlanta fans will be de-
fending their attendance championship,
won last season with more than 18,000
at the initial game.

Stands Are Larger.
The stands are larger as to seating
capacity this spring and at least 20,000
seats will be provided.

The pre-game ballyhoo has been ex-
tensive. Charges and counter-charges
have been made.

The ritual of a parade will be fol-
lowed. It begins at noon, forming on
Spring street near the Peters street
viaduct. It moves up Trinity to White
hall and into Peachtree street and
thence to Baker street where it will
disband.

The Atlanta club will include in the
parade the Tech High and police
bands, sound wagons and a surprise
float which will depict a chapter from
the life of a well-known Chattanooga
baseball executive.

To Bring Band.
The well-known Chattanooga base-
ball executive has brought to Atlanta
his famous "Sympathy band," com-
posed of a half-dozen colored musicians
in costume—no two alike.

With him will come two of his prize-
winning homing pigeons, Hoss John-
son and Black Alimony. They will
carry back to Chattanooga the score
of the game. And comment by Joe
Engel, provided it is not too hot to
scorch the wings of the pigeons.

Man Is Found Dead; Foul Play Suspected

A well-dressed man about 45 years
of age was found dead at about 11
o'clock last night on Peachtree-
Dunwoody road at Stovall boulevard
by a resident of the neighborhood.
The only mark of identification was
initials in his hat—A. A. S.

The resident, a woman whose
name was not learned, said she
heard a woman scream as a car
stopped, saying, "Lord, you'll kill
him." Condition of the body did
not indicate he had been hit by an
automobile. Lieutenant A. T. Butler,
of the Fulton county police, said,
He was bruised about the face.

He was a heavy-set man with
iron-gray hair, oxford gray suit,
green tie and shirt. His weight
was given as between 160 and 180
pounds.

STATE PROH LAW WINS COURT TILT

Thomas Refuses Writ But
Garland Will Seek Deci-
sion by Supreme Court.

The state's prohibition law with-
stood another attack yesterday in
Fulton superior court but will be ap-
pealed immediately to the Georgia
supreme court to determine the constitu-
tionality of the referendum under the
state retained the dry law.

Judge E. D. Thomas denied the
habeas corpus petition of Morris W.
Dorsey, who is serving a six-month
sentence for possession of four pints
of liquor and the sale of one pint.

Reuben Garland, attorney for Dor-
sey, said he will file a writ of habeas
corpus in a few days. This procedure
will bring the appeal up in the supreme
court in preference to minor cases and
probably will result in a decision by
the justices within a few months.

The testimony of nearly a dozen
prominent Atlantans put on the stand
by Garland in an attempt to prove the
prohibition law is enforced in a dis-
crimination manner in Georgia was
ruled out by the court. The expected
answers were read into the record by
Garland after the state's objections to
questions were sustained.

Among the witnesses were James R.
Gray Jr., an owner of the Atlanta
Journal; Roy G. Booker, manufac-
turer's agent; Arthur W. Powell, law-
yer; Alex Heath, of 1206 Peachtree
street; Edgar Dunlap, insurance com-
pany executive; Dr. Joe Eberhart,
dentist; Fred Sorrow, publisher, and
Al G. Hendley, businessman.

Garland questioned them in an at-
tempt to show that poor persons, of
the overall class, were arrested and
convicted of liquor violations frequen-
tly while the "white collar" class and
the rich were never molested. He en-
deavored to show by Hendley that
open bars and saloons are in Savan-
nah, Brunswick, Macon, Columbus
and other Georgia cities.

Assistant Solicitor E. E. Andrews
and Walter LeCraw, representing the
state, entered objections to every wit-
ness and were sustained. Garland then
related what he had expected to show
and this was entered upon the record
for the consideration of the supreme
court.

Paul L. Lindsay, DeKalb legislator
who was a member of the legislature
which passed the alcoholic beverage
control act, told the court it was the
intention of that body to refer the
prohibition question to the people be-
fore any of the dry laws were re-
pealed.

Solicitor Andrews read to Judge
Thomas the legislative record of the
various bills introduced in the house

CALLES IS EXILED TO UNITED STATES IN DRAMATIC COUP

Mexican Government,
Striking Swiftly at 'Sub-
versive' Activity, Re-
moves 'Iron Man,' Aids.

MEXICO CITY, April 10.—(AP)—
Mexico's leftist government, striking
suddenly at "subversive activity,"
removed to dramatic exile to the United
States today the stern one-time
hero and warrior-president, General
Plutarco Elias Calles.

Calles, whose 11-year rule of tur-
bulent Mexican politics once won him
the title of "Strong Man," was placed
aboard a Texas-bound airplane with
three of his followers.

The unexpected government coup
was directed personally by Calles' for-
mer follower, President Lazaro Car-
denas, who has eclipsed his former
chief in the political sun.

A cordon of federal troops and se-
cret police surrounded the homes of
the former president and his three
supporters last night, arrested them
and deported them this morning, ac-
companied by three army officers as
guards.

Sent out of the country with the 59-
year-old Calles were:
Luis Morones, former minister of
labor and leader of the regional con-
federation of workers and peasants;
Luis Leon, former minister of the
interior and of agriculture;

Rafael Melchior Ortega, former
governor of Guanajuato.

Three Sons Accompany.
The exiled "strong man," accom-
panied by three sons, his daughter
and other friends, was taken to the
airport, where the other three prison-
ers were waiting.

Leftists claimed Calles was foment-
ing agitation against the government
in an effort to bring about interven-
tion by the United States in this coun-
try. Only last night the left wing of
the chamber of deputies charged Calles
with responsibility for the bombing
of a Vera Cruz-Mexico City train.

REPUBLICAN BACKS NEW DEAL TARIFF

WASHINGTON, April 10.—(AP)—
Surprised republican congressional
leaders for the most part spurned
promptly today a challenging sugges-
tion from the republican chairman of
the United States tariff commission
that the 1936 G. O. P. platform in-
dorse New Deal methods of tariff
making.

Chairman Robert Lincoln O'Brien,
appointed by Hoover and reappointed
by Roosevelt, proposed that his party
approve the Roosevelt reciprocal trade
treaty plan of bargaining with other
countries for tariff concessions. He
announced he would fight for such
action at the republican national con-
vention in Cleveland.

F. D. R. Proposal of 'Planned City' Discussed by Gainesville Leaders

New Buildings Begin To Take Shape on Architects' Draw-
ing Boards; School Work To Start Monday; Two
More Bodies Are Located.

By GEORGE BURT.
Associated Press Staff Writer.
GAINESVILLE, Ga., April 10.
(AP)—President Roosevelt's suggestion
for a "planned city" to replace that
devastated by Monday's tornado began
to take form tonight on architects'
drawing boards.

Henry Estes, president of the Cham-
ber of Commerce, said a group of the
architects had surveyed the wreckage
yesterday, a few hours before Mr.
Roosevelt's brief stop en route to
Washington.

An announcement that Gainesville's
school system would be "on its feet
in two weeks" was made by Judge
A. C. Wheeler, chairman of the board
of education.

"We expect to have crews in the
white schools by Monday," he said,
"and with insurance companies, and
WPA co-operating we hope to open
the high school in two weeks."

Chambers of Commerce Meets.
Chamber of Commerce members
met today to discuss "just where we
stand and what we can do about it."
They offered thanks "too great for
us to express" to the representatives
of all co-operating relief agencies.

GAINESVILLE LOSS TOPS \$12,500,000

Red Cross Renews Drive
for Rehabilitation Fund
On Receipt of Survey.

The survey of property loss being
made at Gainesville by the University
of Georgia already amounts to \$12-
500,000, though surveys are still
computing the damage, Moreton M.
Kohlman, relief drive chairman, re-
vealed last night.

At the same time Rollston stated
that cash contributions to the Atlanta
Red Cross relief fund totaled approxi-
mately \$120,000. Of that amount, he
said, about \$100,000 was donated by
Atlanta and the remaining \$20,000 by
other Georgia cities.

Stone Crane, field director of Geo-
rgia for the Red Cross, informed Roll-
ston of the amount of the property
loss as revealed by the University of
Georgia survey. The business prop-
erty and stock damage amounts to ap-
proximately \$8,000,000, he said.

At least \$700,000 will be needed by
the Red Cross to rebuild small homes
and businesses in the devastated area
and to care for orphans and widows.
In order to raise this sum, Red Cross
officials are calling upon citizens
throughout the state to make contri-
butions. Willis Miller Jr., of At-
lanta, was appointed state campaign
manager yesterday. Miller and his

Gains Are Recorded By G. O. P. in Illinois

NEW YORK, April 10.—Twenty-
nine electoral votes from Illinois would
go to the republican candidate if next
November's presidential election were
today, according to the results of Illi-
nois balloting in the American Insti-
tute of Public Opinion's latest nation-
wide poll.

Results of balloting in the 48 states
will be made public tomorrow in the
Atlanta Constitution and about 70
other newspapers.

That Illinois—home of republican
candidate Frank Knox—is back in re-
publican columns again indicates a
shift from its position last month. The
March Institute poll found it exactly
on the line—50 per cent for Roose-
velt, 50 per cent for a republican.
Today the republican unknown would
poll 51 per cent against 49 per cent
for Roosevelt.

Although Roosevelt carried Illinois
by 57 per cent to 43 per cent in 1932,
recent monthly Institute polls have
given the state to the G. O. P.

IRKED BY BRITAIN, ITALY THREATENS TO BOLT LOCARNO

Split of 3-Power Front
Looms After England
Hints Stiffer Sanctions;
Rhine Signers Recess.

(Copyright, 1936, by Associated Press.)
GENEVA, April 10.—(AP)—Europe
will make a new and perhaps a last
supreme effort to a durable peace ar-
rangement with Germany, the Locar-
no treaty adherents decided today.

They cut short their discussions to-
night for a month's recess during
which British Foreign Secretary An-
thony Eden will attempt to organize
a complete security plan for eastern
and central Europe.

Still angered over the operation of
sanctions and with this increased
pressure from Britain, the Locarno
treaty adherents decided today.

Baron Pompeo Aloisi, the Italian
delegate at the Locarno session, read
a declaration Italy has always re-
spected her obligations as a guaran-
tor of the Locarno treaty, but said
that his nation recently adopted an
attitude of reserve because of the spe-
cial conditions under which it was
placed.

After making this direct allusion
to sanctions, Aloisi said:
"The Italian government has re-
marked that in all recent official
statements of the British government,
Italy has been clearly ignored. My
government wants to know from each
of you whether the presence of Italy
is desired and responsibilities and
will reserve the right to establish her own
policies."

Eden met this frontal attack by re-
marking that everybody wants Italy
in the framework of European
peace, but he added cryptically that
Italy has not yet ratified the accord.

Pershing Denounced And Fined \$50 Limit

TURLOCK, Cal., April 10.—(AP)—
General John J. Pershing was
fined \$50 here today for what City
Judge H. O. Carlson said was "one
of the most aggravated cases of
speeding" ever brought into his
court.

Carlson expressed regret at not
being able to inflict a heavier pen-
alty on the noted soldier, who was
not in court. The fine is the maxi-
mum for a first offense.

Pershing and his chauffeur,
Clawford L. Shaffer, were accused
of speeding 48 miles an hour
through a 25-mile zone.

GEORGIANS ATTACK DIXIE RAIL RATES

State's Solons Claim New
Structure Is Unfair to
the Southern Territory.

By GLADSTONE WILLIAMS.
WASHINGTON, April 10.—Aroused
by the latest order of the Interstate
Commerce Commission making further
changes in freight rate structures un-
favorable to southern territory, the
Georgia delegation in congress today
moved to take concerted action toward
filing protests with the commission.

Representative Carl Vinson, of
Milledgeville, dean of the delegation,
joined with Representative Eugene
Cox, of Camilla, in announcing that
conferences would be arranged with
other southern congressmen in an ef-
fort to devise some plan of action.

At the same time, Senator Walter
F. George and Senator Richard B.
Russell Jr., of Georgia, pledged their
full co-operation in any move to void
the new discriminatory rates.

Editorials Cited.
Citing recent editorials in The Con-
stitution showing the scope of the new
discriminatory rates ordered by the
I. C. C. and effective next month,
Representative Vinson said he would
consult with his colleagues with a view
of having the entire Georgia delega-
tion prepare protest protests.

"I do not propose to stand by and
see further inequalities permitted
against freight movements in the
southern territory and particularly
Georgia," said Representative Vinson.

"Recent editorial protests voiced by
The Constitution in the subject should
be convincing enough to anyone that
the southern states are receiving un-
fair treatment in rate structures."

Representative Cox was equally in-
sistent that concerted action be taken
by the state delegation to demand a
rehearing in the case.

"I shall propose that the delegation
protest to the commission in a body,"
he said, "and to that end shall sug-
gest a meeting on the subject next
week. It is greatly to the dead-
end of both have joined with others
in the past in filing protests with the
commission."

Both Senator George and Senator
Russell now have bills pending in the
upper chamber aimed at the correction
of the discriminatory rates complained
of and both have joined with others
in the past in filing protests with the
commission.

Senator George said he was doubt-
ful of the effectiveness of such pro-
tests, going by the results achieved in
the past, and suggested another line
of action. He urged that state su-
perintendents institute some action look-
ing to a general reconsideration of the
entire southern rate structure and press
the matter to a final decision in the
federal courts.

If that method "fails," he said,
"there will be nothing left but con-
gressional action. Members of con-
gress from the states affected should
then join in a common purpose to en-
force."

BRUTAL SLAYING BAFFLES POLICE; CLUES ARE SOUGHT

Doors to Home Unlocked;
Fingerprints Found.

NEW YORK, April 10.—(AP)—A
killer invaded the Beekman place
apartment of Mrs. Nancy Evans Tit-
terton at noon today, strangled the
pretty young authoress and escaped
after a crime which mystified police
tonight were trying to solve.

Thirty detectives scoured the neigh-
borhood, one of New York's most fash-
ionable residential centers, for clues
to the man who attempted criminal
assault on the 34-year-old, red-haired
wife of Louis H. Titterton, Engli-
sh-born executive of the National Broad-
casting Company, former resident of
Atlanta, Ga., and formerly associate
editor of the Atlantic Monthly Maga-
zine.

Titterton, while in Atlanta, was
manager of the trade department of
the Atlanta branch of the Macmillan
Company, publishers, in 1920. He
worked there about a year, and then
returned to the New York offices of
the company. During his residence in
that city, he was unmarried and lived
at the Atlanta Athletic Club.

Titterton questioned.
In the fifty-first street police sta-
tion, nearby, authorities questioned
Titterton and seven other men but
admitted unofficially that they had no
idea who garroted Mrs. Titterton, na-
tive of Dayton, Ohio, and left her
body face downward in the bathtub.

The men were later released.

"It's a most horrible thing," the
35-year-old husband told reporters. "I
don't want to talk about it."

Somebody entered the apartment at
about 10:30 a. m. (Atlanta time), ap-
parently choked his wife until she was
dead or unconscious, disrobed her,
tossed her upon one of their twin beds,
attempted to assault her and then
dragged her body to the bathroom,
leaving it face down in the tub. When

American Consulate Bombed at Santiago

SANTIAGO, Cuba, April 10.—(AP)—
A powerful bomb exploded tonight at
the American consulate here, caus-
ing some damage.

A second bomb went off in the
house of Rafael Rejo, postmaster of
the city.

No casualties were reported from
either explosion but the city's popu-
lace was terrified.

The main door of the American con-
sulate was damaged. The bank of
Nova Scotia, in the same building,
was not affected.

Slightly more than a year ago a
bomb exploded in the doorway of the
consulate.

Shortly after the bombings, police
arrested the chauffeur of an automo-
bile from which three passengers
jumped and escaped as the officers ap-
proached. Police said the car had
been stolen from a garage.

\$74,000,000 SPENT FOR RELIEF IN GEORGIA

Outlay Covers Work-Providing Projects Under CWA, FERA, WPA Programs.

Federal funds approximating \$74,000,000 were expended in Georgia between July, 1933, and March 15, 1936, for the relief of the unemployed under the CWA, FERA and WPA programs, it was revealed Friday in the report of Miss Gay B. Shepperson, FERA and WPA administrator, at the conference of representatives of federal agencies in Georgia, under the auspices of the National Emergency Council.

The total expenditures of CWA and FERA amounted to \$66,471,249 up to February 29, 1936. Expenditures for the Works Progress Administration projects and NYA Student Aid through March 15 amounted to \$9,130,544.80 of federal funds, the report showed.

Miss Shepperson submitted a detailed report of expenditures and physical accomplishments under the various relief programs. It was pointed out that the relief programs prior to the inauguration of WPA last July had been mainly works programs. Certain types of projects, which had been proven satisfactory under CWA and FERA, and some individual projects which had not been completed by these agencies, were submitted to the Works Progress Administration and formed the foundation for the new program.

It was shown that through March 15, 1936, \$17,306,228.91 of federal funds had been allotted to the districts in this state for WPA projects, the National Youth Administration program and associated activities. Contributions by local sponsors, mainly cities and counties, amounted to \$1,182,909.17.

Three hundred and five WPA projects had been completed and 2,128 were in operation on March 15.

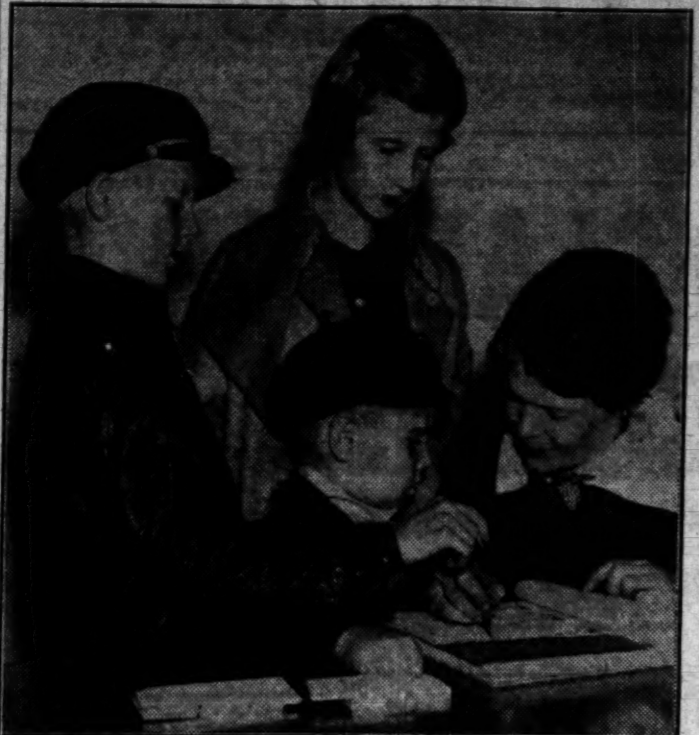

"When the Works Progress Administration was created there were more than 50,000 employables, representing 200,000 persons, on FERA lists in this state," Miss Shepperson pointed out. "Approximately 43 per cent of the employables on relief were classified as unskilled workers. Projects were undertaken in every county in the state. They were designed to meet definite needs of the state and individual communities, as well as to utilize the classes of labor available in the localities. Now, in nearly every community will be found evidence of the activities of the administration."

The report showed that continuous efforts through distinct phases of the program have been concentrated on road and street improvements, improving and extending educational facilities, developing healthful living conditions, extending publicly owned utilities, modernizing buildings housing administrative agencies of government units—court houses, jails, city halls; improving airports, checking soil erosion and providing recreational facilities and leadership.

bricks and metal that had choked the city Monday had been hauled away. Funeral processions still traveled to the cemetery made soggy by four days' rain.

Death List Raised. The list of known dead was raised today with the addition of the names of O. Doyle Bowman and June Couch, negro. Both were killed in the collapse of a grocery store. Another death was that of H. E. Perry, who died in an Atlanta hospital Thursday of injuries.

Mrs. W. H. Norris, previously reported among the dead, was found to be alive, although injured.

Mrs. J. Prater, also included in the Red Cross death list, was found alive and well, visiting relatives in Atlanta.

A long line of overworked workmen lined up today in front of the battered Paoli mill, buffeted severely by Monday's tornado.

They were there to repair the factory, not to man the looms, most of which were damaged by the twister and rain that followed.

Walking up and down the lines giving orders now and then was D. W. Anderson, Spartanburg, S. C., treasurer of the company, here to supervise rebuilding.

Damage in Millions. "Our damage will run into the millions," he said, "but we are going to rebuild as quickly as possible and resume operations at the earliest date."

Earlier estimates on damages to the Paoli mill, located in suburban New Holland on the northern fringe of town, had been set at \$1,000,000.

"That is just a starter," Anderson said as he surveyed the wreckage before him.

The two top stories of the main structure, a five-level building, had been ripped away. Nearly 100 mill village houses owned by the company lay wrecked. Five other permanent buildings of the manufacturing concern suffered damage of varying seriousness.

Attitude Is Typical. Anderson's attitude was typical of that of the rest of Gainesville's business and civic leaders.

"We are going to build a bigger and better Gainesville," said J. E. Palmour Jr., attorney and head of the co-ordinated relief agencies.

Halted by cold, beating rains yesterday, relief crews swung back into action today, clearing away tangled debris and rebuilding.

The stream of commerce increased. More stores opened and three banks, the Gainesville National, the First National and the Citizens Bank, resumed partial emergency operations. Fewer soldiers appeared on the streets as the military, however, will continue in command for several more days, authorities said.

Riverside in Operation. Riverside Military Academy was the only school in operation. Classes were suspended there for only a day, during which most of the cadets sought to bring order out of chaos before the national guardsmen arrived.

Stone J. Crane, field representative of the American Red Cross, announced a University of Georgia survey, still incomplete, had disclosed damage of \$12,500,000.

He estimated \$550,000 would be required for emergency rehabilitation of homes, one-man businesses and care of orphans.

The disaster chest in Atlanta passed \$100,000 today and a score of other cities gave \$25,000 in the relief drive.

WOULD MOVE CAPITOL. WASHINGTON, April 10. (UP)—Representative Marion Zioncheck, democrat, Washington, announced tonight that he is thoroughly disgusted with Washington, D. C., and that he is going to introduce a bill to move the national capital to Seattle, his home town.

CALES, 3 SUPPORTERS EXILED FROM MEXICO. Monday in which 13 persons were killed, Cales emphatically denied the accusation with:

"Bombers are not exiled; they are executed."

Upon orders of President Cardenas federal troops surrounded the ranch at midnight. General Rafael Navarro and three officers entered Cales' bedroom, where he had been ill for four days with influenza.

Must Leave Mexico. "By the orders of President Cardenas, you must leave Mexico because the conditions of the country so demand," advised Navarro.

Cales replied: "I am your prisoner, since I have no forces, and you may take me to an airplane or before a firing squad. I consider that the conditions of the country are due, not to me but to the government itself."

Cales, who returned to the capital to live last December, had split with Cardenas on questions of labor policy.

Scores of labor organizations asked the government to expel Cales as a "jacket threat" after he had protested against what he called Cardenas' "marathon of radicalism."

Outwardly, Cales had taken no part recently in politics, but obviously the government must have supposed he was planning a coup with the aid of labor leader Morones.

CALES AND AIDES ARRIVE IN BROWNSVILLE. BROWNSVILLE, Texas, April 10. (UP)—Former President Plutarco Elias Cales and three other once-powerful Mexican political figures—all bitter opponents of the present revolutionary government—were forcibly exiled to the United States today.

Under guard of six heavily armed Mexican army officers, Cales, his fellow exiles were placed aboard a specially chartered plane at Mexico City and rushed across the border to Brownsville.

"A state of anarchy exists in Mexico and communism is spreading with government help," Cales declared when, after a four and a half-hour flight, he arrived at the Brownsville airport. Later the four exiles left by plane for Fort Worth, Texas, where they will spend the night. They will continue on to San Diego, Cal., tomorrow.

Cales was roused from bed at his Santa Anita outside the Mexican capital, shortly after midnight. He intimated he was ill when the soldiers arrested him last night. He was allowed time to dress in a dark, conservative suit and pack a few personal effects. Then they took him to the airport, where the other three men were under guard.

Morones, once leader of the Mexican labor party, and the others had been secretly arrested yesterday afternoon.

YOUNG STORM BABY IS IDENTIFIED BY AUNT

Mother of Piedmont Baby in Critical Condition at Crawford Long.

A small blond-haired baby girl who stared out at the world through big wondering blue eyes—the youngest of three small victims of the Gainesville tornado recovering from injuries at Piedmont hospital—was identified yesterday afternoon as Frances June 2-year-old daughter of Mrs. Dorothy Tulin, of Route 6, Gainesville.

A sorrowing aunt, Mrs. Charles Tulin, who had come from the funeral of the little girl's father in Gainesville, identified Frances at the hospital, after having seen a picture in The Constitution Thursday morning.

The child's mother is in a critical condition at Crawford Long hospital, suffering from injuries received in the disaster, which claimed her husband and injured her young daughter.

Following publication of the little girl's picture, hundreds of offers of adoption poured into the hospital. Bushels of messages came. There were Easter bunnies, boxes of candy and fruit—all the things to make a child happy.

Foremost among the requests to adopt the appealing little dimpled waif was one from Joe Engel, president of the Chattanooga Lookouts. Engel says he still wants to take care of the little girl's mother should she succumb to her injuries.

Frances, darling of the hospital, had been unidentified since she was brought to the Crawford Long hospital from the Gainesville storm, which scattered her family. Not quite two years old, she couldn't talk very well.

Mrs. Erlene Mounts and Miss Minnie Barber, who came to the hospital to have their hands full taking care of requests for adoption that have come in and seeing that newspaper reporters "get the story," were here at the news that her mother had been found.

Identified earlier through pictures published in The Constitution were two other small victims of the storm, Lillian McClure, 5, identified by her mother, and Gladys Evans, 10, identified by her father, who is waiting in the Fulton tower to begin a three-to-five year sentence on charges of larceny after trust.

Another freak prank played by the storm was revealed when a Gainesville hospital yesterday with the identification of 9-year-old Ruth Sullins, whose case has been similar to that of the child who is at Piedmont hospital.

A serious condition, able to give her name, but unable to give any information as to her parents. Admitted at the same time was Mrs. E. E. Hart. Her husband and other relatives could not be located.

Hospital authorities worked with the Red Cross to find the husband of Mrs. Tulin and the parents of little Ruth.

Elbert Teal came from Gainesville yesterday and identified Ruth Sullins as his daughter. He said that his wife, both were lying seriously injured on the same floor of the hospital, unaware of the other's presence.

Another daughter, he says, is still missing.

Slum Clearance in Atlanta Shown in Housing Exhibit

Every agency of the federal government is on parade today and tomorrow at the Henry Grady hotel. The taxpayer has a chance to drop in and see where his money was spent. Here we see D. A. Calhoun, district supervisor of the Techwood housing project, and Mrs. Lillian Ramsey, his secretary, showing how the government has worked out housing facilities for the low-income group. assistants have set up an office in the Volunteer building and will begin immediately to co-ordinate relief drives throughout Georgia.

"Citizens never realize just what rehabilitation means until they are setting up sufferers just as they were before the storm. Of course we have an enormous task. I hope everyone will realize there is no time more fitting for helping others than is Easter.

We expect our fund to rise by leaps and bounds during the Easter season. Many ministers in Atlanta, and many others throughout Georgia, are welcoming the opportunity to ask their congregations for contributions. We who are relief workers will remain here at headquarters all through the day."

Industries Asked to Aid. Rolleston urged industries "to become '100 per cent subscribers'" and to make a contribution to the fund.

"With such an appalling loss, we feel that we can only raise sufficient funds by campaigning on the every-member basis," he said. "Firms and families who have not received their stickers should get in touch with us at headquarters."

Contributions may be made at the Red Cross relief headquarters in the Volunteer State Life building, or to the three Atlanta newspapers.

In addition to other relief centers having been set up throughout the city and in the suburbs, there also are many office buildings with representatives to the south.

Southern Bell employees collected \$215 yesterday, which makes their total contribution \$2,432.45. "The employees and management of the Fulton and Cotton Mills, which are now closed, have contributed \$2,082.40."

\$1,000 Subscription. The largest individual subscription for the day came from R. W. Woodruff, who gave \$1,000.

From the stricken city of Gainesville itself came \$100 from A. M. Dean. The Sewell Manufacturing Company, \$500; Barwick, \$100; Hart, \$100; Hubbard Panta Company in the same city sent \$50.

Other subscribers yesterday were Ben Hill county, \$500; Upon county, \$1,300; Macon county, \$200; Hart county, \$500; Plains, \$125; Rome, nearly \$1,500; Lindale, \$750; Putnam county, \$400, and Sparta, \$510.

Further contributions for the relief of the tornado sufferers the Gainesville listed as sent yesterday or about to be sent to Red Cross headquarters included: Quitman, \$500; Barwick, \$100; Hart county, \$150; Murray county, \$347.62; Talbotton, \$120; Athens, total contribution of \$6,600; Chickamauga, \$501.

Through an error the employees of the Palmetto Cotton Mill at Palmetto were announced yesterday as having contributed \$35.45. The amount of that firm contributed \$102.25.

LaGrange pushed its contribution to more than \$4,000; Thomasville to more than \$1,000 and Griffin to more than \$4,000.

Nurses Assist. Fifth District Nurses' Association yesterday sent clothing and other articles to the Gainesville hospital during the storm. Employees of the Exposition Cotton Mill voluntarily contributed \$512.50 to the relief fund, in addition to subscriptions made by officials of the company.

Lucas & Jenkins, motion picture operators, announced that in addition to the special show here Saturday night, 42 of their theaters throughout the state will give a Red Cross benefit performance at midnight Saturday.

All employees of the theaters will donate their services, so that every cent collected will go to relief.

Other contributors yesterday were: Georgia Veterans of Foreign Wars, \$50; employees of the George Moore Ice Cream Company, \$63; employees of the board of education, \$38.45; employees of the Southern Freight Association, \$45.40; Douglasville Red Cross chapter, \$300, of which \$147.44 came from the schools.

Authorized Solicitors. Authorized solicitors in Atlanta of the special committee are: Kathleen C. Dann, general chairman of the special committee; J. E. Palmour Jr., attorney; W. P. Bloodworth, room 320, Connally building; Walter Thomas, Southern Bell, Hart building; E. J. Bass and F. L. MRS. FULLER CALLAWAY PASSES AT LA GRANGE

Rites Will Be Held Tomorrow for Mother of Two Well-Known Georgians.

LAGRANGE, Ga., April 10.—(AP)—Mrs. Fuller E. Callaway Sr., 63, widow of the former head of the Callaway textile mill organization, died here of pneumonia today at the family home, Hills and Dales.

Funeral services will be held at 3 p. m. Sunday at the First Baptist church, with the Rev. Willis Howard, pastor, and the Rev. Walter Bins, pastor of the First Baptist church of Rosok, officiating. Interment will be in Hillview cemetery here.

Mrs. Callaway was the mother of two nationally known figures in the textile industry, Cason J. Callaway, chairman of the board of the Callaway mill, and her son Cason is a past president of the American Cotton Manufacturers. He is also a member of the board of regents of the University System of Georgia, having served in that capacity several years.

Mrs. Callaway's husband, who was founder of the large textile mill here known as the Callaway mill, with other plants in several sections of Georgia, was one of Georgia's most prominent citizens as well as being an outstanding figure in the United States in the textile industry. Collecting his death several years ago, a monument was erected here to his memory and every year on the anniversary of his death, the owners of the mills pay tribute to his memory by holding memorial exercises.

Since the death of Fuller Callaway Sr. some years ago, Mrs. Callaway's chief interests had been in the world-famous Ferrell Gardens, which covered many acres of Hills and Dales. The gardens, which yearly attract visitors from many sections of the world, were particularly famous for the number of flowers and shrubs grown there. Gardeners said \$8,000 worth of flowers and shrub which would grow in this climate was to be found in the gardens.

She was a member of the Peachtree Garden Club in Atlanta and had served as president of the club. Hills and Dales, the family home, occupies about 1,000 acres on the outskirts of LaGrange. It is one of the show places of the state.

Mrs. Callaway, the former Miss Ida Jane Cason, was born July 16, 1872, at Jewell, Ga., in Hancock county. She was the daughter of Alexander Tombs Thomas Cason and Olivia Pratt Jewell Cason. The town of Jewell was named for the family of that name.

She was a direct descendant of Gregory Priest, who came to America on the Mayflower in 1620.

She was a graduate of the Southern Female College at LaGrange, a member of the Daughters of the American Revolution, the United Daughters of the Confederacy, the American Colonists, the Colonial Dames, the Garden Club of America, and the First Baptist church of LaGrange.

She was also a member of the board of directors of the LaGrange Memorial library.

She took an active part in the work of the organizations of which she was a member and was also active in all civic affairs pertaining to the city and community's welfare and upbuilding.

Cordele Fights Way to Normalcy After Recent Violent Tornado

Plucky South Georgia City, With 21 Killed and Property Damage Set at \$3,000,000 in Storm April 2, Sets About Task of Continued Care for Injured, Rebuilding Area.

CORDELE, Ga., April 10.—(AP)—This little south Georgia city, victim of a tornado April 2, is daily fighting its way back to normalcy.

The twister that wrought damage to a large number of residences and a few business establishments—damage estimated at \$3,000,000—brought a total of 21 deaths.

This number is considered unusually low in view of the great number of houses damaged, and the violence of the winds, also, many of the occupants were in their houses when the storm struck.

At present, there are 40 patients in a hospital for negroes, and 12 in a hospital for white persons. Nearly all of them are reported in "fairly good condition."

Approximately \$9,000 has been collected by the Red Cross for the benefit of storm victims. Checks have been made from many sections of the state. Officials estimate \$100,000 is needed for immediate relief and rehabilitation of unfortunate citizens.

The city is going ahead bravely at its task and although it suffered greatly in the storm, its citizens express much concern over the worse plight of another Georgia town, Gainesville, which suffered tremendous loss in a tornado a few days after an area of Cordele was devastated.

The Red Cross, under direction of Frank A. Cashel and Ernest Krick, is pushing relief work on all fronts. With the problem of extending immediate relief to injured persons met, the task of nursing back to health those persons remaining in hospitals is now occupying chief attention. But rehabilitation has gained much headway this week.

City Manager John R. Brown reports a number of residences being repaired, creating much activity among building supply dealers and contractors.

"We feel like the relief problem is being well cared for and rehabilitation is progressing far faster than was first anticipated," the city manager said.

"The co-operation of the public has been unusually good. Everywhere the citizens have realized the need of immediate, concerted action. Due to this co-operation, we are gaining headway each day."

"Every precaution is being taken to protect the public health and the citizens of Cordele can rest assured that this part of the program will not be neglected."

FUNERAL OF EDITOR HELD AT DALTON
Final Tribute Is Paid to T. S. Shope, Noted Georgia Publisher.

DALTON, Ga., April 10.—(AP)—Funeral services were held here today for T. S. Shope, one of Dalton's foremost citizens, and editor of the Dalton Citizen. Mr. Shope died at his home here Wednesday after a brief illness.

Rev. S. F. K. Sims, pastor of First Presbyterian church; Rev. L. M. Twigg, pastor of First Methodist church, and Rev. J. L. Clegg, pastor of First Baptist church, officiated at the services, which were held at the residence.

Funeral services were held at the residence of Mr. Shope, who was a member of the Dalton Citizen and the A. J. Showalter publishing house, which he also headed, formed an honorary escort. Burial was in West Hill cemetery.

A large assemblage of newspaper editors and friends from throughout Georgia and Tennessee was here for the services.

Mr. Shope was known throughout the south as a writer of forceful editorials, as well as a capable business executive. His publishing house did an extensive business.

W. Kirk Sutlive, of Blackshear, president of the Georgia Press Association, headed a group of distinguished Georgia editors as honorary pallbearers.

HONOR JEFFERSON
Memorial Luncheon Held by Women Democrats.

The memory of Thomas Jefferson was honored at a luncheon-meeting of the Georgia Women's Democratic Club, held at 1 o'clock yesterday afternoon at the Atlanta Athletic Club.

Mrs. Wellington Stevenson, president of the club, was toastmaster. Brief talks were given by Mrs. Lamar Rutherford Lipscomb, C. L. Wood, Mrs. Rena Ramo, Mrs. Marietta, vice president of the club; Mrs. Tom Wisdom, Mrs. William P. Dunn, Miss Willa Richardson, secretary of the club, and Mrs. R. H. Hankinson, of McDonough.

As Jefferson was an accomplished violinist, special violin music was presented by Miss Florence Smith and Mrs. Henry Robinson, with Miss Burgess at the piano.

Mrs. Eugene Talmadge, wife of the Governor, attended.

VETS DIG FOR DAHLIAS, 'STRIKE' POT OF GOLD
NAPA, Cal., April 10.—(AP)—Four World War veterans, residents of Youthville Soldiers' home, went digging for dahlias and returned with a pot of gold.

The men, instructed to uproot all bulbs in a patch, unearthed a total of \$175 in \$5 gold pieces.

Colonel Nelson Holderman, commandant of the home, said the gold apparently had been cached by a hospital patient who died without divulging his secret.

MUCH POULTRY SOLD.
SANDERSVILLE, Ga., April 10.—(AP)—Approximately 7,000 pounds of poultry was loaded by 184 farmers at the co-operative poultry truck sale held at Davisboro and Sandersville, County Agent J. E. West reported.

The sale netted poultry raisers \$1,267. Another sale is to be held in about four weeks. The sales are to continue as long as the market is good.

HIGH RIVER STAGES SEEN TODAY IN STATE

Cities Have Escaped Injury But Lowlands Are Being Flooded.

Rain-swollen rivers inundated lowlands and hampered traffic in many sections of Georgia last night, and higher stages were expected today and later at some points along the Chattahoochee, Flint, Savannah, Ocmulgee and Oconee rivers.

So far, cities have escaped serious damage and most of them have been free of any flood waters whatever, but low-lying areas have been inundated and highway and rail traffic hampered at some points.

The Atlanta weather bureau predicted a rise in the Chattahoochee river below West Point, where low-lying streets were inundated earlier in the week. The rise fell at West Point yesterday and in midafternoon was down to 21 feet as contrasted to a troublesome 23.4-foot stage Tuesday.

Heavy rains fell in or near the watershed of Flint, Chattahoochee and other streams Wednesday night and Thursday morning, to add to the burden of the streams.

Traffic Halted.
In Macon, traffic was halted over the fine new Stripling memorial bridge on Ocmulgee river due to flood damage to the bridge's approaches. The bridge itself was considered safe. Highway department engineers dropped numbers of sandbags into the water around the approaches to help stop the damage. One of two eight-inch water mains hooked on to the under side of the bridge was broken, but water service was supplied to the North Highlands community of Macon by another main.

The Ocmulgee was on the rise again at Macon, following a 2.25-inch rain. A further rise was expected during the night, as flood water from the watershed reached there.

The Oconee at Milledgeville was up again after a 2.82-inch rain there. The river was at the highest point in Milledgeville it has reached since 1929. Roads and bridges in Baldwin county suffered as various streams flooded them.

Augusta expected the Savannah river to go to 35 feet this morning. Although the river damaged the Augusta canal earlier in the week, Augusta itself is not flooded, and the predicted rise will not exceed the safety limits of the levee.

Highways from Augusta to Allendale, S. C., and the A. C. L. and C. & W. C. railways from Augusta to Yemassee and Sumter, S. C., were blocked by high water. The C. & W. C. was at a standstill, trains being blocked also by an earlier washout on the Spartanburg line. A. C. L. trains north were being detoured over the Southern railway to Columbia, S. C.

Highway and bus travel from Augusta to Macon and Atlanta via the Warrenton route was blocked by heavy rains.

The Atlanta weather bureau reported rainfall in various points for the 24 hours ending yesterday morning as follows: Woodbury 1.34; Griffin 1.47; Montezuma 2.02; Albany 4.01; Bainbridge 1.53; Americus 2.55; Euclid, Ala., 3.29; Blakely 2.73; Gordon, Ala., 3.05; Blountstown, Fla., 2.70; Columbus 1.56; Macon 2.22; Atlanta airport 1.10; Thomasville and Savannah none; Augusta 1.58; Norcross 1.25; Dahlonega 1.68; Rome .84.

Stages Expected.
The bureau predicted the following stages on various rivers: The Flint river: Montezuma (18.4 yesterday), 20.5 feet today; Albany (22.6 yesterday), 27 feet by Sunday; Bainbridge (23.7 yesterday), 25 today, possibly 29 feet Wednesday. If it goes to 29 feet, it would be the highest river Bainbridge has seen since 1923, when the stage was 38.1.

Chattahoochee: Columbus (38.2 yesterday), 39 to 40 feet today; Euclid, Ala. (46 yesterday), 50 feet early today.

Apalachicola: River Junction, Fla. (20.9 yesterday) 24.5 feet by April 13; Blountstown, Fla. (21.4 yesterday), 24 feet by April 14.

ATLANTA, GA., APRIL 11, 1936.

IN THE RIGHT DIRECTION

The proposal of the citizens-council committee on local traffic problems that a driver's license system be established in Atlanta should have the serious consideration of city council. Whether or not the plan as outlined by the committee will best meet local conditions, it is a step in the right direction.

Under the present no-license system the police are placed at serious disadvantage in endeavoring to keep incompetent or reckless drivers from behind the steering wheel. Drivers who habitually operate their cars in defiance of the traffic ordinances can, and are, arrested time and again, but there is no provision of law by which they can be permanently removed as threats to the safety of law-abiding users of the public thoroughfares.

When even the most serious offender against the reasonable traffic ordinances has paid his fine for violations entailing the most serious danger to himself and the public, he can walk out of the courtroom, get behind the steering wheel of his car and continue his reckless disregard of the rights and safety of others.

With the adoption of a driver's license system, and its rigid enforcement, an end can be put to this farcical situation.

It may be that some of the provisions contained in the suggested outline of a driver's license law advanced by the citizens-council committee are so strict as to cause the danger of lack of general support of the plan; others may not be strict enough; still others may not be best suited to local conditions.

It should not, however, be difficult to devise a workable driver's license system that would have general support and go far toward checking the reckless operation of automobiles on the city's streets. Other cities have perfected such laws and we can profit by their experience.

Certainly some step must be taken to assist the police in keeping those mentally or physically unfit from behind the driver's wheel, and it has been proven in other cities and states that a driver's license system is the most effective step to that end.

YOUNG GIRL SHOWS WAY

Martha Martin, a 13-year-old 4-H club girl of Dougherty county, made the experienced beef cattleman of that section sit up and take notice when a white-faced steer raised by her won the grand championship prize at the recent fat cattle show in Albany, and then won \$30 in other prizes and a \$25 Poland China pig.

Little Miss Martin sold her steer to an Albany market for 26 cents a pound, or \$244.40. Not bad for a 13-year-old farm girl, and it goes to show the younger generation that there is a future in farming for those who have the desire to achieve. And, at the same time, those older farmers who are still arguing that "it can't be done," should reflect that while they are giving voice to that discouraging phrase, somebody, somewhere, is doing it.

Georgia has every natural advantage for the production of cattle, hogs, sheep, mules and poultry, and the farmer who engages in these activities as sidelines to a diversified farming program is the one who will get ahead.

The ancient plaint of "no market" no longer is tenable; it is true there is no market for scrub cattle and nondescript hogs, but for high-grade animals there is a ready market at good prices. Georgia packing houses are still forced to ship in animals from the north to supply the demands on their plants; they would prefer to buy at home

and thus save high freight charges, but they do not desire inferior animals.

The monthly beef cattle and hog sales now being held at various points in the state are bringing producers good revenue, and progressive farmers who are not already in the industry will waste little time in getting a start and gradually growing into quantity production.

FLOODS A NATIONAL PROBLEM

In a statement commenting on the flood ravages in eastern and northern states, Lachlan Macleay, executive vice president of the Mississippi Valley Association, emphasizes that the "toll of property loss alone of the floods this year would pay for the construction of a large part of an adequate flood control program."

The huge losses in New England and Pennsylvania have served to bring general realization of the necessity for a nation-wide flood control program, and Senator Copeland has predicted that the \$300,000,000 measure now pending will be swelled to at least a half-billion, or even a billion, by amendments submitted by members of congress representing every section of the country.

Already Senators George and Russell have appeared before the senate commerce committee, asking that \$330,000 be made available for flood control work on the Coosa river near Rome and \$22,000,000 for the Clarks Hill project on the Savannah river.

The statement by Vice President Macleay, of the Mississippi Valley Association, points out that major flood disasters are confined to no one section of the country, having visited the Mississippi valley last year, while the north and east are the chief sufferers this year.

It is cited that in the region of the watersheds of the Allegheny, Monongahela and Ohio rivers there have been 86 high waters above flood stage in the last 80 years.

No state in the Union has been without its disasters from the ravages of flooding rivers. Georgia's rivers, like those of her sister states, have taken their toll in life and property in the past.

Vice President Macleay urges that "the experience of the flood areas emphasizes the need for source stream flood control reservoirs to impound flood waters at the source," and cites army engineers as authority for the statement that the crest of the recent flood at Pittsburgh would have been at least 10 feet lower with source stream reservoirs in the upper reaches of the Allegheny and Monongahela rivers.

The flood control bill now pending in congress includes tributary flood control projects and provides, in addition, for levee and channel improvements. Thus, it is believed, not only will flood crests in the lower river valleys be reduced, but surplus flood waters will be impounded for economic use in low-water seasons.

So universal have been the losses from raging rivers in the past that the question of flood control is a national problem, properly in the province of the federal government.

A GOOD RECORD

A report recently issued by the Louisville & Nashville railroad discloses that its net income for last year was \$1,161,558 more than it was in 1934. Gross income for 1935 was reported as \$75,694,731, a gain of \$5,732,063 over the preceding year. Freight revenue climbed 8.1 per cent to \$63,931,558 and passenger revenue was up 5.8 per cent to \$5,772,545. An increase of \$4,465,520 in operating expenses included \$2,568,000 in wage restorations.

With many other railway lines and systems in the hands of receivers, or borrowing huge sums from the government to keep in operation without bankruptcy, the showing made by the Louisville & Nashville stands out as an example of good management, aggressive action in catering to the demands of the traveling public and shipping industries.

As stated in a recent Constitution editorial, the Louisville & Nashville is one railroad that was not overloaded with bonded indebtedness during the heyday of big profits. Thus, having no tremendous "overhead" interest debt to pay each year, it was able to pass through the worst of the depression years in good financial condition.

The Louisville & Nashville was the first railroad in the country to inaugurate reduced passenger fare rates, which action was followed later by all southeastern railroads and still later by roads west of the Mississippi river. That 8.8 per cent increase in passenger revenue over 1934 shows the reaction of the traveling public to reduced fares, and it must be remembered that the 1934 revenue was an increase over 1933, when the reduced fares were first put into force.

This was one of the first railroads in the southeast to put into operation the "pick-up and delivery" system for less than carload lots of freight, a move that has cut heavily into freight that has been going to freight trucks.

World's Window

BY PIERRE VAN PAASSEN.

The Ethiopian War.

And so, Signor Mussolini wins his war against the Negus! The British navy is discreetly steaming out of the Mediterranean, leaving some skeleton units at Alexandria and Haifa for the sake of appearance. A wave of sympathy for the Duce is passing through France for his "correct" attitude in the matter of Hitler's denunciation of the Locarno treaty. Sir Austen Chamberlain, elder statesman of England, whose influence on Mr. Baldwin's cabinet is very strong, holds up Mussolini as a model of statesmanship and demand for the lifting of sanctions against Italy comes from all directions. Rome is inclined.

The Duce Knew His Onions.

When King Victor Emmanuel and Marshal Badoglio ventured to point out to Mussolini that a war in Africa would be a risky undertaking for Italy, the Duce is said to have replied: "Events will come to our aid. There will either be a serious conflict in the far east or a sharp tension between France and Germany. Our assistance in the maintenance of peace will be invaluable in both eventualities. Ethiopia is not too much of a reward."

Offensive And Counter-Offensive.

Haile Selassie has undertaken an offensive. But Graziani is about to start his bombing drive on Harar. The emperor of Ethiopia is trying to avoid an interior line of battle. He is trying to offset the mounting dissatisfaction in his country by trying to gain a quick success against the invader. The races in Abyssinia are dissatisfied with the Negus. He never was a popular ruler, it must be admitted, but this time his powerful chiefs blame him for postponing the mobilization of the Ethiopian army. The Italian army had actually crossed the frontier. The races wanted Haile Selassie to attack last year in July and even in February a year ago, when Italy was manacled by the League of Nations and England to pull him out of the predicament. But England has a major trouble on her hands at the present time and the League talked and talked and dallied while Mussolini poured troops into Erythraea and, by Jove, the League still talks.

Serious Situation.

The personal situation of the Negus is so serious that he undertook the recent offensive to offset a growing movement for his abdication. Both the Negus, powerful as he is, and the crown prince, the eldest son of the Negus, are pretenders, or rather candidates for the throne. There are several others. The interline rivalry between Haile Selassie so far, but he cannot forever withstand the pressure from inside and outside simultaneously. Something is going to crack one of these Abyssinians. And it will not be a pleasant experience for white people to live through.

Negus Realizes Situation.

On March 16 I learned on good authority, Professor Gaston Jeze, the eminent authority on international jurisprudence at the Sorbonne in Paris, that Haile Selassie, the emperor of Ethiopia, has been asked to abdicate. He is a man of great courage and ability, but he cannot forever withstand the pressure from inside and outside simultaneously. Something is going to crack one of these Abyssinians. And it will not be a pleasant experience for white people to live through.

Good Morning

BY LOUIE D. NEWTON.

THE HYMNS OF EASTER.

I would be very happy if I could say good morning this day before Easter with a suggestion that would lead you to take half an hour some time today or tonight or tomorrow and read quietly some of the Easter hymns—the heaven-born hymns that bear their fragrant message of the outpoured love of God in the gift of His only begotten Son. The Easter hymns shed blood reconciliation might be effected for sinful man and the further message of His triumph over sin and the grave.

There are many such hymns, but may I suggest at least three? "How Beautiful Were the Marks Divine," "Fairer Lord Jesus, Ruler of Nature," "Ride On, Ride On, O Jesus," "Gentle Jesus, Meek and Mild," "The Midnight and On Olive's Brow," "There is a Green Hill Far Away," "O Sacred Head, Now Wounded," "Alas, and Did My Savior Bleed," "Beneath the Cross of Jesus," "When I Survey the Wondrous Cross," "Jesus Christ Is Risen Today," "He Lives! The Great Redeemer Lives," "Hail The One Who Has Crowned With Thorns," "I Know My Redeemer Liveth," "Christ, the Lord, Is Risen Today."

And may I suggest that we read into the words the exquisite interpretation by Sidney Lanier:

Into the woods my Master went,
Into the forest, forest;
Into the woods my Master came,
Forsook with love and shame.
But when they were blind to Him,
The little, gray leaves were kind to Him:
The forest-tree had a mind to Him,
When he came to the woods to Him.
Out of the woods my Master went,
Out of the woods my Master came,
Out of the woods my Master went,
Out of the woods my Master came.
Content with death and shame.
When death and shame were vain to Him,
From under the trees that drew Him last,
Twas on a tree they saw Him last,
Twas on a tree they saw Him last,
Twas on a tree they saw Him last.

How To Avoid 'Em.

"Hello! This is long distance. I have a call for you from Miami."

"Hello! This is Ben. Listen, Jack, I'm stranded here and need \$100."

"Something must be wrong with the phone."

"I want \$100."

"Something must be wrong with the connection."

Operator: "I can hear it O. K."

"Well, you give him the \$100."

Curled Mustaches.

Take the word of an international barber's convention for it—the mustache is coming back. The approved form will be closely cropped, with or without small points, which must not be pomaded, but trained with a curling iron.

Drinking Increases.

Price reductions in alcoholic beverages resulted in an 8 per cent increase in consumption last year in Poland. Poles still drink only about a third as much as in prewar days, perhaps because the state liquor monopoly sets aside a certain amount of wine annually for temperance propaganda.

NEWS BEHIND THE NEWS

BY PAUL MALLON.

HOLLOW CHEER

WASHINGTON, April 10.—The Wisconsin rags of the Borah cheering section came from the larynx and not the esophagus.

The real reason Mr. Borah won Wisconsin was because he was the beneficiary of a peculiar political situation which does not prevail elsewhere.

The dominant La Follette groups of ex-republicans had no presidential candidate. There was no place for them to go except into the republican primary for Borah or into the democratic primary for President Roosevelt. They did both.

Stranger yet, a large group of the anti-La Follette republicans were for Borah, not entirely unimpaired of the embarrassment it would cause the La Follettes if they had to choose between Borah and Roosevelt in November.

Thus it was that Borah drew from the progressive and conservative groups, as well as the orthodox ones in between. That feat has rarely been accomplished.

The real answer to the Borah candidacy will be written in Illinois Tuesday and in Ohio a month later.

YAWN

The Ritten impeachment case has been a great bore to the senate. During the last few days the leaders have had difficulty in keeping a quorum present. Senators, who are judges and jurors combined, have been complaining to Floor Leader Robinson that the case has blocked their pet legislation. Most exasperated has been Senator Overton, whose flood control bill was the unfinished business when the senate dropped its legislative mantle and became a court for the duration of the trial.

The only other senatorial comment which you hear in the jury room is an occasional remark dropped by a liberal to the effect that it is a good thing to try a federal judge every once in a while. They seem to think it keeps the judiciary alert.

BREAK?

What is behind these latest yarns about a Hoover-Landon split is evidence picked up by Landon workers indicating that some of Mr. Hoover's good friends have begun quietly building up Senator Dickinson.

There is, for instance, an outstanding midwestern banker, who entertained Mr. Hoover on a visit several months ago. This banker is a leader of a small group of businessmen. All displayed interest in the Landon candidacy until recently. Then they started talking up Dickinson. At the same time a Washington associate of Mr. Hoover has been expressing bitterness to pals about the way Landon went into California. He usually reflects the Hoover mind. But, when Mr. Hoover was in New York recently, he told a political comrade that he was not against Governor Landon, that he thought the way things are going now, the Kansan would be nominated on the first ballot.

An open break is not likely.

FUTILITY

The senate has become very noisy since loud speakers were installed for the impeachment trial.

Some senators have been trying to borrow Senator Glass' anti-noise ear stoppers. They were sent to him by a local official after Glass complained about the street noises in front of his hotel.

Only one thing holds them back. Ear stoppers would be useless whenever certain loud-voiced senators get the floor. There are two or three who could drown three auto horns, a clanging trolley and a policeman's whistle, without taking a deep breath.

AUTHORS

A Pacific coast friend of Mr. Hoover walked up to him after his Fort Wayne speech and congratulated him, saying it was the best balanced and finest toned political speech he had ever delivered.

The congratulator naively suggested that Ben Allen (the Hoover adviser who has been getting all the publicity about writing Hoover's speeches) must have been a great help.

A spokesman at Hoover's right shot back: "If Ben could write a political speech like that, he would at least have got himself elected mayor somewhere."

MIND-CHANGING

Generalissimo Farley is supposed to have been upset because Agriculture Secretary Wallace declined at first to give out any information concerning AAA payments. The political master mind had much to do on the inside with Wallace's change of mind subsequently.

It did not require a master mind to see that Wallace's recalcitrance doubled interest in the material.

Even so, Mr. Wallace may have been correct in the first place. The disclosure of AAA payments has stimulated considerable kicking against the new farm plan. For example, it was announced that in the north central states farmers will be paid \$1.50 an acre for soy beans to be ploughed under, whereas the Bureau of Agricultural Economics shows that the cost of planting soy beans is about \$20 an acre.

SILHOUETTES

BY RALPH T. JONES.

My lover is just a playboy.

Often he runs away,
When in the mood of a playboy,
Down stranger paths he'll stray.

Often he makes my soul ache.

Often he cheats, I know,
With tears and a bitter heart break
Often I've seen him go.

But I know he'll be returning.

As bad boys always do,
When for peace his soul is yearning,
He's mine—when he's feeling blue.

Observant Lady—

In Gainesville.

Maybe there has already been plenty written about Gainesville, the tornado and the city's agony, this week. Nevertheless, I feel that I should say something that I feel should be put in print. It was written by a charming lady who has rarely, if ever before, let her husband dictate what he writes. She went to Gainesville on Wednesday with her husband, who had business there. She was determined not to get in the way of all the work being done in the stricken city and she was in no sense there from idle curiosity. She sat in the automobile, parked at a street corner, and came to do. Following are her impressions, gathered in those few minutes on a street corner in the center of the tornado blasted area.

The Only Beauty.

"A spray of Easter lilies, the smile of a baby, a basket of tulips. The only beauty I saw in the storm devastated territory of Gainesville. The lilies were in a garden in a passing hearse, the baby, wrapped in an old gray blanket, was carried by its weary young mother across the street in her arms. The tulips were on the crushed porch of a large white house, with walls cracked and roof gone.

"Sitting in a car, parked at the corner of Murphy street, opposite the postoffice, beside a big stone smash without a roof, with windows smashed and interior a wreck, I watched the traffic, directed by a man in an overalls cap with a newly-made cut bleeding on his left cheek. A high school boy shouldering a gun, in National Guard uniform, patrolled the church. Three middle-aged businessmen stood idly on the corner, amid the crushed marble of the postoffice lobby. They probably had no business left."

Busy Activities Of Relief.

The status of Colonel Sanders, broken, lay on the sidewalk. A dozen ambulances turned toward the Methodist hospital, for all that part of "New England" lying between 3 miles to the north of the Merrimack river and 3 miles to the south of the Charles river, and every part thereof in Massachusetts bay, and in length between the described breadth from the Atlantic ocean to the South sea."

This was the beginning of Massachusetts Bay colony, which was to be confined with the earlier Plymouth colony. The first settlers came on the following May. Like Carson Robinson, who never saw the colony he founded, the first settlers of Plymouth, Rev. White never set foot on Massachusetts, but, Edward Everett says, "he was the most efficient promoter of the undertaking."

On the sixtieth anniversary of this historic patent, the Massachusetts Bay Company colonists issued the call for the first convention of representatives of English colonies in America to meet and arrange co-operation—the beginning of the Union.

FAIRENOUGH

BY WESTBROOK PEGLER.

No Issue.

Of course, prohibition is no issue in the current presidential campaign. But I think of prohibition every time Mr. Hoover makes a speech, because the very word recalls what sort of President he was when he had his chance. It is hard to remember, so easily are pains forgotten, that during Mr. Hoover's time in Washington many people were shot on the mere suspicion of some bun with a government badge in his pocket that they might have in their possession as little as a dram of some miserable counterfeit liquor, let alone the decency to say, yes, yes or no about it. If he had had the gumption to say that he believed in prohibition, that would have been something. But you can go through his entire record and never find a sentence in which Hoover the President or Hoover the cabinet member has said a word in the English Amendment except to call it a "noble experiment," or expressed the natural loathing of honest men for a regime of lawlessness that was as much Hitler and Mussolini at their worst.

After all, if a government kills innocent men and then protects the killers by a private investigation, it is a picture of malicious neighbors to slay the occupants and drag them off to jail for protesting, that is nazism and fascism.

No Longer

By the time Mr. Hoover became president prohibition was no longer an experiment, although he went so far as to call it one of his more daring moments. By that time prohibition had matured into the All-American outrage. In Ohio there had been a system of extortion and blackmail conducted by local constables and backed by the federal law. In Indiana the law permitted a man's arrest if a policeman said he detected liquor on the bootlegger's breath. In other states the proprietors of hotels posted warnings in the rooms notifying guests that prohibition agents might legally break in at any time. Anytime a badge had the right to enter and search and, of course, the opportunity to extort a bribe or blackmail any time.

There is no way of reckoning the number of people who were fined or sent to prison for being just a little bit guilty, as in the case of a man who took the lady and kept her on his hands. There is no computing the total of people who died of poison or lost their eyes or the number of gin joints who became unstrung from drinking jake.

There is no computing the total of people who died of poison or lost their eyes or the number of gin joints who became unstrung from drinking jake.

Gangs.

An established system of corruption in which agents of the United States government rode the bootlegger's trucks to provide safe conduct or helped one gang of bootleggers hijack another gang's load. Certainly not even Mr. Hoover himself has been dumb enough to believe that enormous breweries operating openly in New York and Chicago could produce and sell their beer without the protection and partnership of government agents and prosecutors. But the Anti-Saloon League seemed strong and Bishop Cannon was a tough politician, so Mr. Hoover was not at all surprised when, by repudiating the report of his own commission which investigated prohibition and found it rotten.

Murder.

For the one spectacular triumph of his administration, Mr. Hoover used the income tax law to cover murder, extortion, bribery, bootlegging and let me say what he sent Al Capone away for 11 years for failing to share with the government his profits from many kinds of crime. Mr. Capone, undoubtedly one of the most vicious of his time for all his misbehavior, but there are not many criminals who will agree that an income tax evasion calls for 11 years. But Capone had made a spectacle of prohibition and did more than any other man to destroy the Eighteenth Amendment, and with it Herbert Hoover's reputation. He was a great American emancipator received a sentence which had all the earmarks of presidential reprobation.

Twenty-Five

Years Ago Today.

A proposal that failed. From the constitution of Tuesday, April 11, 1911:

"To sell the present police station property and construct a central police station in the city of New York, to establish three or four police sub-stations in the outskirts of the city is the plan which will be vigorously pushed by the police department. H. Mason, and which is strongly advocated by Chief of Police Henry Jennings."

And Fifty

Years Ago.

"I got the connection. From the Constitution of Sunday, April 11, 1886:

"Gladstone on top, and home rule a certainty now, so don't forget to attend Knapp's sale of the vacant lot adjoining the Chamber of Commerce, at 3:30 p. m., next Monday."

Talmudic Tales

BY DAVID MORANTZ.

Number 294.

(Based upon the ancient legends found in the Talmud, which work embodied the civil and religious laws and traditions of the Jewish people.)

THE SABBATH WILL REPAY.

Joseph, who always observed the Sabbath, piously, had a neighbor who was very rich.

The Chaldean soothsayers told this neighbor that all his wealth would eventually be owned by Joseph.

Accordingly, this neighbor became alarmed, so all his property and bought a large jewel with the proceeds. This jewel he fixed in his turban, which he wore and guarded very carefully.

While crossing a bridge one day, a gust of wind blew his turban into the water and the jewel swallowed it.

It happened that this fish was caught and was brought to the market on a Friday to be sold.

Joseph, who always devoutly observed the Sabbath and who usually bought fish on that day, happened to see this fish which struck his fancy and he bought it.

When the fish was cut up, the jewel was found in its belly and sold for 13 purses of gold denarii. Thus bearing out the teachings of the sages that "He who observes the Sabbath piously, incurring additional expense in so doing, the Sabbath will repay."

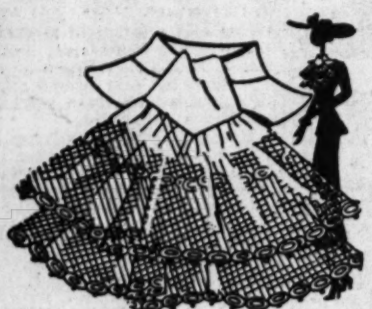

Due to the extensive interest in Talmudic Tales, 128 of the legends and over 500 pearls of wisdom have been collected in an attractive book of 166 pages, handsomely bound in green, blue, red, and gold, with a stamped title. Autographed by

COUNTY IS REQUESTED TO SPEED SEWER WORK

**Key Asks Line Be Rushed
To Connect With Dis-
posal Plant.**

Mayor Key yesterday urged Fulton county commissioners to speed up work on that section of the large trunk line sewer paralleling Peachtree creek from Bobby Jones' golf course to the Clayton disposal plant now being constructed on the banks of the Chattahoochee river.

In a letter addressed to Dr. Charles

Key pointed out that the stretch is about 18,000 feet long and that only about 4,000 feet has been completed. He pointed out that at the present rate of progress, it will take about three years to finish the undertaking on which the county is engaged.

Forces already are working night and day on the disposal unit, and when it and the connecting links on the upper end of the drainage shed are completed with the lower portion still unfinished. Key pointed out that

Key also referred to a similar condition on the South river basin, adjacent to East Point, Hapeville and College Park, but said he understood that an agreement has been reached about speeding up that link.

"I am calling your attention particularly to that portion of the Peachtree creek sewer from the Bobby Jones golf course to the river disposal plant which your board agreed to build. The other work of this sewer is being completed as rapidly as possible. We have asked for additional co-operation from the federal government, with the idea of using time saving appliances and I am assured that we will receive that."

"We must bear in mind that most of

and we must also bear in mind that the money which the government has appropriated must be used by June 30 of this year, or else it goes back to the federal treasury—unless the law in the meantime, is changed—and I hope that will be done. Hence we are pushing this work day and night, and in some cases are using double shifts. The work at the river disposal plant is being carried on night and day, by the necessity that confronts us.

"The section which the country

000 feet. The county has built, to date, approximately 4,000 feet. The rate of progress at which the work is being done—it will take at least three years to complete the job.

"The result will be that we will have a disposal plant completed, but idle because no sewerage reaches it."

erage p to the county section, but we will be compelled to pass sewerage into Peachtree creek, which will leave the nuisance and menace to health conditions practically unchanged."

**MAYOR OF TAMPA
LAUDS FESTIVAL**

**Terms Event Milestone in
Directing Attention
to the South.**

Mayor R. E. L. Chancey, of Tampa, yesterday informed Mayor Key that

approaching first annual Dogwood Festival to be held here, and offered any service he may be able to render.

Chancy congratulated Key for the undertaking, characterizing it as "another milestone in the progress of directing the attention of the country to the beautiful south."

Text of the telegram follows:

"Atlanta's plans for an annual Dogwood Festival marks another mile-

attention of the country to the beautiful south.

"In Florida we realize the value of events of this kind and want you to know that if there is anything we can do toward assuring the success of this newest of southern festivals you have only to command us."

THE RULES

1. The Atlanta Constitution's "Game of Movie Titles" is open to all residents of Georgia and adjoining states, viz.: Alabama, Florida, North Carolina, South Carolina, Tennessee, Mississippi, and the Virginias, with the exception of employees of The Atlanta Constitution or members of their families and with the exception of persons who have won as much as \$1,000.00 in any previous Atlanta Constitution contest.
2. A series of thirty cartoons, each cartoon suggesting, representing, or in some way conveying the title of a motion picture, will be issued and published in The Atlanta Constitution beginning March 11th, 1936.
3. The Atlanta Constitution will award \$4,200.00 in prizes. The first prize will be \$1,000.00 cash and a new de luxe four-door Dodge Touring Sedan. The person or persons submitting the best or most appropriate name for each of the thirty cartoons, and in all ways conforming to these official rules, will win first prize. The person submitting the next nearest correct solution to the thirty cartoons shall be eligible for the additional prizes in the order of the correctness of their solutions.
4. In case of ties, as many prizes will be reserved as there are persons tied before any prizes are awarded for a less correct solution; that is, if two or more people tie in submitting the correct or nearest correct solutions to the thirty cartoons, the first two or more prizes will be reserved for them, and will be awarded in the order of the correctness of the solutions of such contestants to a second series of thirty cartoons. If necessary to eliminate further ties, as many as a third or fourth series of thirty cartoons may be submitted to the 'tied' contestants and prizes awarded in order of the correctness of answers submitted. In the event of final ties, a prize identical to that tied for will be awarded to each tying contestant. No subscription nor more than one set of answers will be permitted after the first series of tie-breaking cartoons.
5. To qualify for a prize in the "Game of Movie Titles" contest, the participant must submit either two new six-month contract subscriptions, daily and Sunday, payable to the carrier at the rate of 20 cents per week or two new six-month paid-in-advance subscriptions at \$5 each, or one new yearly subscription at \$9.50. Outside of the city, where the paper is to be sent by mail, the rate is \$6.00 for six months or \$9.50 for 12 months, payable in advance.
6. All subscriptions submitted will be verified by The Atlanta Constitution, and are subject to the acceptance or rejection of The Atlanta Constitution. In the event a contestant's subscriber should fail to carry out his or her contract to take the paper, the contestant agrees to replace with another new subscription during the period of the contest. A new subscriber is one who is not now taking The Atlanta Constitution, and has not done so for a period of thirty days prior to March 6, 1936, and the paper subscribed for is not, directly or indirectly, to take the place of The Atlanta Constitution now being delivered to any other person.
7. Any person, upon entering the GAME OF MOVIE TITLES, agrees to accept as final the decision of The Atlanta Constitution upon any and all questions that may be raised in the conduct of the contest, in judging and awarding of prizes, and in the acceptance or declining of subscriptions submitted for qualifying purposes.
8. Neatness does not count. Elaborateness in the preparation or decoration in submission of answers will not count, and there are no letters to write.
9. Participants are requested to submit solutions to the GAME OF MOVIE TITLES either of The Atlanta Constitution, Atlanta, Ga. on or before midnight, Saturday, April 11, 1936. Ample time will be allowed to replace any subscription that The Atlanta Constitution may find it necessary to decline.
10. For each additional two six-month contract subscriptions, or two new six-month subscriptions paid in advance at \$5.00 each for carrier or mail, or one new annual subscription paid in advance, \$9.50 for carrier or mail, over and above the original requirement, a participant would be permitted to submit two sets of answers, if the answers were accompanied by four new six-month contract subscriptions, or four new six-month paid in advance, or two new yearly paid in advance carrier subscriptions, or two new yearly paid in advance mail subscriptions. All answers to each cartoon will be combined and if any one of the answers to that cartoon be correct, the participant will receive official credit for having submitted a correct answer to that cartoon.
11. Sets of answers to which no name is signed will not be considered by the judges, nor will any claim as to the ownership of such sets of answers be considered. The Atlanta Constitution will not be responsible for any answers lost or unduly delayed in the mails, either from a contestant to The Atlanta Constitution or from The Atlanta Constitution to the contestant.
12. By submitting a solution prior to the date set for the announcement of the correct titles of the thirty cartoons, any reader of The Atlanta Constitution whose name was on record as interested in the GAME OF MOVIE TITLES is privileged to compete for \$4,200 in prizes, under the subscription requirements as specified in Rule No. 5, or to compete for each other prizes as The Atlanta Constitution may decide to add, before or after April 11th, 1936.

End of Ritter Impeachment Trial Is Expected in U. S. Senate Today

WASHINGTON, April 10.—(AP) Defense attorneys said tonight they expected to bring the senate's impeachment trial to a close tomorrow with testimony by the defendant himself, Federal Judge Halsted L. Ritter, of Florida.

This announcement came at the close of a day which saw a long procession of witnesses offer testimony intended to refute charges that the accused jurist had violated the judicial code and had allowed exorbitant retainer fees.

While a large crowd of Easter tourists watched the unusual proceeding from the galleries, defense counsel drew from witness after witness testimony that Judge Ritter had received fees himself after he went on the bench in February, 1929, but for services performed prior to that time.

Evidence also was introduced, designed to show that the defendant had allowed a "reasonable" fee in granting A. L. Rankin, a former law partner of West Palm Beach, \$75,000 for representing plaintiffs in the Whitehall hotel receivership. Rankin had testified he divided this fee and another \$15,000 allowed him by Federal Judge Alexander Akerman at Tampa among three other attorneys in the case.

This testimony was offered after

opposing counsel had engaged in a heated argument at the outset of the fifth day of the trial over introduction of voluminous correspondence relating to negotiations leading up to the receivership suit.

The defense finally won its request that the entire file be incorporated, but not until the prosecution had withdrawn its objection of irrelevancy.

Frank P. Walsh, of defense counsel, contended the letters and telegrams would show there was no conspiracy between Judge Ritter and others to bring the receivership suit, as charged in the impeachment articles.

Representative Sumners, democrat, Texas, argued for the prosecution, which had previously placed part of the correspondence in the record, that the other letters related to bankruptcy proceedings and to the receivership.

"The whole question," he said, "turns on whether there was chambers conduct or collusion between parties and Judge Ritter to bring the receivership suit."

This testimony was offered after

RAIL RATES IN SOUTH HIT BY GEORGIA SOLONS

act remedial legislation. Several bills are now pending on the subject, but opposing interests have succeeded in delaying consideration.

Effective Course.

The Georgia senator expressed the view that one of the most effective courses would be for southern representatives to unite in demands for proper representation on the I. C. C. board. He said if the south had some strong man on the federal rate-making body it would stand to command better treatment. To this end, he joined with a number of others at the beginning of the Roosevelt administration in urging the appointment of former Governor Thomas W. Hardwick, of Georgia, as a member of the board.

Senator Russell joining in the protests sounded by other delegation members, declared he stood ready to aid in any move which seemed able to cope with the situation.

"The inequality of rates will work a severe injury to the south's industrial development," he asserted, "and I do not propose to see the new order continued without vigorous protests."

A similar position was taken by Representative Robert Rameck, of Atlanta, who also has a bill pending in the lower house. The entire state congressional group, in fact, may be counted upon to go the limit in opposing the I. C. C. order.

Letter Cited.

As an example of the discriminations complained of, delegation members cited the recent publication in The Constitution from C. T. Kilgore, of Atlanta, traffic manager of the Cotton Manufacturers' Association of Georgia, who pointed out that the new freight rate from Boston to Chicago will be only 1 cent higher than from Atlanta to Chicago, although the distance from the Massachusetts city to Chicago is some 245 miles greater than that from Atlanta to Chicago.

Likewise, delegation members have been impressed with an editorial from The Constitution of recent date further illustrating the disparity between rate levels in the south and east by pointing out that 43 cents will carry commodities only 300 miles in the southern zone compared with 80 cents in the eastern or so-called "official" zone.

Southern manufacturers have emphasized the helplessness of their ability to compete with eastern producers under a rate structure of the kind.

HAILE SELASSIE ESCAPES.

SMARA, Eritrea, April 10.—(AP) Ethiopian tribesmen, friendly to the invading Italians, reported today that Emperor Haile Selassie narrowly escaped death after the Italian victory at Lake Ashangi. Members of the Azebu Gallas tribe said the negus, his means of flight almost cut off, escaped only because he was not recognized since he was shorn of his beard.

AUTO INJURIES FATAL TO CITIZEN OF MILLEN

MILLEN, Ga., April 10.—(AP) M. Lindsey succumbed here this morning to injuries received in an automobile accident earlier in the day when his car crashed into the guard rails of the Ogeechee river bridges.

The car tore out 120 feet of railing as it careened across the span.

Lindsey was in another serious wreck less than a year ago and was in a hospital for several weeks.

He is survived by his widow, two children, Virgil and Charles Jr., and other relatives at Tenuille.

means committee, let it be known responsibility lodged in the executive that if he has his way O'Brien will not be given so much as a hearing.

O'Brien's proposed plank would denounce what he termed the old-fashioned congressional "log-rolling" method of writing tariff bills.

In addition, the plank would say that "if we are to have tariff trading, or tariff bargaining, it must be a re-department, or in the hands of the department, and not subjected to the town-meeting methods of huge legislative bodies."

In addition, O'Brien would incorporate the view that executive leadership in revising tariff schedules was a republican principle first enunciated in the flexible tariff law of 1922.

Nothing had been added to the bill of bargaining between countries in arriving at important duty rates.

Act Is Illegal.

"Mr. O'Brien's proposal cannot be considered," said Senator Steiwer, republican, Oregon. "The 1934 treaty act is unconstitutional and its administration contrary to American interest."

"I wouldn't be in favor of it," said Senator Francis, republican, North Dakota. "The treaties so far haven't worked out satisfactorily—at least for farmers in my section."

Representative Kautson, republican, Minnesota, a member of the house ways and means committee, shunted the idea aside with "Take your plank to the democratic convention. That's where it belongs."

Senator Capper, republican, Kansas, who voted for the New Deal law giving the President his tariff bargaining powers, said: "I do not believe any such plank would be accepted by the republican national convention."

drawn up by the three other Locarno adherents at London.

While Eden was given a mandate to ask Hitler to clarify the German scheme of security, France reserved the right to take any action she might think desirable if Germany made any new move in the Rhineland during the forthcoming discussions.

To the French, Eden's effort looms as one of despair, upon which the destiny of Europe may depend. To the British it is replete with hope of success.

British, French, Belgian and Italian diplomats reached their decision for the new move at a discordant session at which they clashed almost to the breaking point. France, Belgium and Italy voiced apprehensions for their future security against war and for their places in the world.

At an earlier meeting, the League of Nations conciliation committee canvassed the Italian-Ethiopian situation and set two committees in action to revive efforts to bring peace in East Africa.

BOND CUT IN PLOT CASE.

PENSACOLA, Fla., April 10.—(AP) Judge C. M. Jones, of the court of record, today reduced Mrs. R. W. Vann's bond from \$5,000 to \$2,000, but the 40-year-old housewife, charged with trying to have her husband's train wrecked so she might collect his insurance and marry another man, remained in jail.

EX-ATLANTAN'S WIFE IS SLAIN IN GOTHAM

he left both the front door and the bathroom windows unlocked.

There were fingerprints on the bathroom wall, police announced, and they hurried to check them against their records of criminals. Medical examinations staged an autopsy.

The crime was committed so quietly that the tenant in the apartment on the third floor, directly beneath, was not disturbed. Mrs. Harold Conner said she was at home all through the night and that her collar, stained by a sweat-dog, was not alarmed.

Seven Others Quizzed.

Police questioned these persons besides Titterton: John Fiorenza and Theodore Kruger, porters who said they found the body when they delivered a couch to the apartment.

Andrew Mings, janitor at the building, 22 Beekman place.

Sven Frederickson, superintendent of nearby buildings.

Three painters who had been working in the neighborhood. Their names were not given out.

It was Kruger who, investigating the silent apartment, noticed a leg sticking out of the tub. He and Fiorenza called the employees of the building. They found Mrs. Titterton's body clad only in stockings and with the top part of her pajamas and the torn fragment of a red blouse knotted double about the neck.

Her wrists were bruised, indicating she had been tied. Her clothes, apparently ripped from her body, were scattered in the bedroom. Apparently nothing had been taken from Mrs. Titterton's only piece of jewelry, a platinum ring, was still on her finger.

Titterton married her in 1929. Both were literary-minded. She had written two books and many short stories. He had been graduated from Cambridge University in England with a brilliant record in oriental languages. He came here in 1924 and naturalized and worked as associate editor for Atlantic Monthly magazine and the Macmillan Company. For four years he has been an editor on literary rights and continuities.

Had Fashionable Home.

They lived among celebrities, their neighbors being many persons high in society, the theater and business, and their walk-up apartment overlooked the East river in the "Fifties."

They had no children. It was the first marriage for each and their friends said they seemed to be happy.

The body was found lying face down in the tub. It was a little on its left side. Both arms were underneath, the left elbow protruding. A sack made of the top part of her pajamas and the torn fragment of a red blouse was knotted double about her neck, but police said it had not been used to strangle her. Her wrists showed marks indicating they had been tied.

A shirt and a brassiere lay at the foot of the bed. At the headpost was an article of underwear. The bed was 15 feet distant from the bathroom.

Police theorized that the slayer attempted or completed an assault upon Mrs. Titterton.

He then dragged her inert body, probably strangled before the assault, to the bathroom. He placed her body with its head toward the faucets, its legs doubled backward.

The bathroom window was closed but not locked. A fire escape was outside the window.

Hurries Home.

Her husband hurried from his office to his shattered home when informed of his wife's death. She had been cheerful when he left her this morning, he said. He had telephoned her before noon.

The last person to talk to her, however, apparently was Mrs. F. Ronald Mansbridge, socially prominent, who telephoned at 10 a. (Atlanta time) to make an engagement with Mrs. Titterton for Saturday night. Mansbridge said the two women were good friends and that his wife reported that Mrs. Titterton indicated nothing was wrong at that time.

The Tittertons employed no maid. Titterton admitted, police said, they were careless about locking doors and windows.

They lived at 22 Beekman place, between 50th and 51st streets, overlooking the East river. Around the corner at 40th street is the apartment where Miss Vera Streiz, a well-educated stenographer, shot dead her former lover, Dr. Fritz Gebhardt, German industrialist, a crime of which she was acquitted one week ago today on grounds of self-defense.

Nearly live Katharine Cornell and Guthrie McClintic, prominent in the theater; William Paley, president of Columbia Broadcasting Company, and other famous folk. At No. 1 Beekman place live many of the socially registered. The Mansbridges live in St. Luke's place, near-by.

Magazine Writer.

Mrs. Titterton had written for the Bookman, Story and other magazines. Acting Chief Medical Examiner Thomas S. Gonzalez said he would perform an autopsy tomorrow and would then state whether the woman had been assaulted.

The front door had not been "jimmied." Nothing in the five-room apartment had been disarranged except the bed. There was no water in the bathtub.

The slaying occurred shortly before 11 o'clock a. m. (Atlanta time), he said. The body was found at 3 p. m. (Atlanta time).

Other Resident.

Residents of the No. 22 building include the Countess Alice Hoyos. At No. 30 live William B. Leeds and the Grand Duchess Marie. At No. 31 live Frank Gilmore, head of the Actors' Equity Association. John D. Rockefeller 3rd and Elihu Root Jr. live at No. 1.

Titterton, 35, was born at Ascom, York, England. He was graduated from Cambridge University in 1923 after studying oriental languages and medicine. He came to this country in 1924, studied at Harvard University for two years on the John Rogers Choate scholarship, was associate editor of the Atlantic Monthly magazine from 1925 to 1927 and then as assistant states manager of the Macmillan Company, publishers, in 1928. He was sales manager of the trade department of that firm in Atlanta for six months in 1929 and became an associate editor in 1930. He went to NBC in June, 1932.

SLAIN AUTHORRESS LIVED IN DAYTON, OHIO.

DAYTON, Ohio, April 10.—(UP) Mrs. Nancy Titterton, slain New York writer, was the daughter of a well-to-do family and lived in Dayton until about ten years ago.

She was known here by her maiden name of Violet Evans or by her pen name, Nancy Evans.

Her parents lived in fashionable suburban Oakwood. Violet attended Steel High school in Dayton and in

1924 was graduated from Antioch College, Yellow Springs, Ohio.

Violet's marriage October 5, 1929, to Titterton, her parents moved to the vicinity of Georgetown, Ohio, about 70 miles south of Dayton.

Friends said he had not been in Dayton since 1926 or 1927.

'DUCK WALK' REVEALED AS SPOILER OF PARADE

List of Hints for Sunday's 'Show-Off' Prescribes Proper Posture.

NEW YORK, April 10.—(AP) Eighty per cent of the women in the annual Easter parade "walk like ducks," Miss Gertrude Mayer, head of a professional model agency, said today in giving a list of hints on how to show off new clothes next Sunday.

"The biggest thing wrong with the Easter parade is posture," Miss Mayer said. "Eighty per cent of the women walk with their knees bent—a sort of 'duck walk'."

"It doesn't do justice to their clothes."

Her first suggestion for improving the Easter parade was for women to "keep their knees straight and walk in a straight line, using more hip motion."

Point 2 was: "If your clothes are old, act nonchalant."

"The best thing a man can do in the Easter parade is to stay in the background," was point 3, with this codicil for men: "Don't carry a walking stick unless you know how."

The other Easter parade "hints" were:

4. Don't strain your neck to see your reflection in every shop window on the avenue.

5. Don't walk stiffly, so as not to create or crumple your new outfit; don't do unnatural things to attract attention—such as talking over-enthusiastically with your escort.

6. Keep your shoulders straight, head up, stomach in, arms loosely swinging with an easy grace.

7. Don't promenade with a friend whose outfit clashes with yours.

8. Don't thrust your hands in your pockets. It pulls the shoulders down and looks awkward.

9. Don't touch your escort's arm and hang on it for dear life. If you must take his arm, rest your hand lightly on it.

10. If you walk with a man in the Easter parade, pick a handsome one—handsome and quiet."

can only relieve pain and depend on nursing and the will to live.

Her father watches at the bedside. Miss Moore, who lives at 690 Holmden street, S. W., is 28 years of age and the daughter of Mr. and Mrs. O. L. Moore, of Austell. She was trained at the Atlanta hospital.

Out of the many tales of heroism that took place at Gainesville and of the many that remain untold, this, her friends hope, will not require: "A man who gives up his life for his fellow man."

MRS. J. L. GILLETTE DIES IN EAST POINT

Prominent Church and W. C. T. U. Worker Passes After Long Illness.

Mrs. J. L. Gillette, pioneer resident of Atlanta and active in church and W. C. T. U. work, died last night at her residence, 806 Dauphine avenue, East Point.

Mrs. Gillette, who was 85, had been ill for more than a year.

A native of Bristol, Conn., Mrs. Gillette came to Atlanta from Massachusetts in 1892. She was active in church circles, and organizer of the Patterson union, W. C. T. U., serving as president for 22 years.

She was the wife of the late Jerome L. Gillette.

Surviving are a son, Clinton J. Gillette; a daughter, Mrs. John E. Warren, of whom she lived, and 12 grandchildren.

Funeral services will be held at 3 o'clock tomorrow afternoon at the chapel of Sam R. Greenberg, with the Rev. D. H. Maxey officiating.

Burial will be in West View cemetery.

UNIVERSITY GROUP MEETS AT ATHENS

State Session of College Women Opens Annual Conference.

ATHENS, Ga., April 10.—(AP) The annual Georgia conference of the American Association of University Women got under way here tonight with a brilliant dinner for the state executive board and branch presidents.

The session was strictly social but the executive board met afterward to draw up recommendations to be offered before the body at tomorrow's sessions. Election of minor officers also will be held.

Miss Gertrude Gilmer, of Valdosta, has another year to serve as president.

Miss Gay B. Shepperson, state WPA administrator, will make the principal address of the conference at a luncheon given by the University of Georgia. Dr. Harmon W. Caldwell, president of the university, will make the address of welcome tomorrow.

A sightseeing tour and an address by Mrs. Emma Garrison Morris also are on the program. Mrs. Arthur Gannon, president of the local chapter, is official hostess at the conference.

ATLANTAN PURCHASES KANSAS CITY COMPANY

Arthur S. Bird, Associate Buy Viking Refrigerator Company From Banks.

KANSAS CITY, Mo., April 10.—(UP)—Arthur S. Bird, prominent Atlanta businessman, and Ernest L. Stultz, of Kansas City, today purchased the capital stock of Viking Refrigerators, Inc.

The deal was closed by transfer of

1,500 shares of common stock with a par value of \$100 each. The company's assets include a \$100,000 surplus.

The company was owned by the Commerce Trust Company and the Harris Trust & Savings Bank of Kansas City, which acquired it from the estate of the late Walter S. Dickey, Kansas City newspaper publisher, May 1, 1935.

Stultz will become president and general manager under the new ownership and Bird will be a vice president, although inactive in the management of the company.

Bird indicated he and Stultz planned extensive expansion of the company in the future.

Miss Stribling Weds Floyd C. Thompson At Home Ceremony

The marriage of Miss Azalee Stribling and Floyd C. Thompson was quietly celebrated last evening at the home of Mrs. Thompson on Orme circle, in the presence of relatives and a few close friends. Dr. William H. LaPrade, pastor of the Trinity Methodist church, performed the ceremony and Misses Sally Scott and Alice Withersall gave a program of nuptial music preceding the service.

Mrs. Joseph E. Buffington was the matron of honor. She was gowned in an aquamarine model of net posed over tulle. A matching shade which featured a short train and a self trim of graduated tucks. Her flowers were yellow daisies and ribbons. Little Charlotte Harber was the flower girl and she wore apricot net over apricot tulle. She carried a colonial nosegay of blue delphiniums. The bride entered with her brother, Joseph E. Buffington, by whom she was given in marriage. At the altar she was met by the groom and Frank M. Cagle, his best man. The bride wore a dark navy blue gown with a coat into which the train was built. The sleeves were tight fitting from the elbow to the wrist where they flared in a point and buttoned with tiny satin covered buttons. A striking feature of the gown was the Elizabethan collar which extended to form lapels at the front neckline. Her veil was of illusion tulle, which was caught to her hair by a wreath of orange blossoms. She carried an arm bouquet of valley lilies.

Immediately after the ceremony Mrs. Thompson Johnson entertained at a reception. The bride's table was covered with a white lace cloth and centered with a three-tiered wedding cake surrounded by Easter and flag lilies. The bride and groom left for their wedding trip to Sea Island Beach. For traveling Mrs. Thompson donned a gray tailored suit over which she wore a darker navy blue dress. Her shoes were of dark blue. After their wedding journey and Mrs. Thompson will reside in their recently completed home on Candler road.

Miss Artley Weds Mr. Mead At Peachtree Christian Church

The marriage of Miss Helen Artley and Mr. Berne Matthews Mead was solemnized yesterday afternoon at an impressive ceremony performed at the Peachtree Christian church on Peachtree street, by Rev. Robert Burns, in the presence of an assemblage of relatives and friends. The pulpit was elaborately decorated with palms, foliage plants and urns of lilies. Seven-branched candelabra, arranged on the altar, shed a soft light over the attractive setting.

Mrs. Ludlow Vanderberg, Clark Deichler, the bride's sister, was her only attendant and she was a charming figure wearing a gown of navy blue sheer trimmed with collar and cuffs of dusty pink pique. Her hat was of dark blue cellophane straw and she wore a shoulder bouquet of pink orchids. The bride, who was accompanied to the altar by her father, Allen Troth Artley, by whom she was given in marriage, wore a striking costume of navy blue, which she complemented with modish bell-shaped sleeves and trimmed with white silk pique. Her hat of navy blue Regille straw was trimmed with small white wings and she wore a shoulder bouquet of white orchids.

Charles William Mead, of Chicago, brother of the groom, acted as best man and the ushers included William L. Wrightson, Fred C. Mason Jr., and L. V. Clark Deichler. Mrs. Artley, the bride's mother, was attired in a two-piece model of violet shaded crepe with which she wore a picture hat of straw to match.

Colquitt U. D. C. Holds Meeting.

The Alfred H. Colquitt Chapter, U. D. C., met at the Georgian Terrace Thursday with the president, Mrs. Fred Hanson, presiding.

Members of the chapter, Mrs. H. H. Anderson was presented with a certificate by the president. Mrs. R. T. Stanfield, who had charge of the program, read a paper on "The Mead of the Meads," which plans were made to observe Memorial Day. The chapter will take part in the parade, and Mrs. Hanson urges members to meet at the Georgian Terrace hotel at 10:30 o'clock. The chapter will also occupy reserved seats on the platform at Oakland cemetery.

The greater part of the meeting was devoted to the forthcoming trip to Olathe, Fla., where a marker will be erected on May 9. Olathe is just off the highway between Lake City and Jacksonville. The chapter has named the Battle of Olathe the most sanguinary of the War Between the States, but to Georgians the main point of interest concerning this battle is that an illustrious son of this state was named "Hero of Olathe."

This was Alfred H. Colquitt, soldier, lawyer, statesman, congressman and United States and beloved Governor of his state. It is to his memory that the Alfred H. Colquitt Chapter, U. D. C., is erecting this marker. On May 10, by way of Irwinville, where the members will attend the dedication of Jefferson Davis Memorial park.

MR. AND MRS. BERNE MATTHEWS MEAD.

A bouquet of parma violets and gardenias completed the ensemble. Mrs. Berne Mead, of Chicago, the groom's mother, wore a gown of black chiffon posed over black silk and her hat was of black straw. Her shoulder cluster was formed of gardenias and valley lilies. Mrs. Charles Mead, of Chicago, the groom's sister, was costumed in black crepe and her shoulder spray was of gardenias. Miss Ann Artley, the bride's young sister, wore a dress of flowered chiffon with the yellow shades predominating. Her hat was of black straw and she wore a shoulder cluster of Perpetua roses.

Mr. and Mrs. Artley, the bride's parents, entertained at an informal reception at their home on Peachtree street after the service, the guests including members of the bridal party, out-of-town guests and relatives. A color motif of green and white prevailed in the decorations used throughout the rooms where the guests were received. The hosts were assisted in receiving by the bride and groom and Mrs. Berne Matthews Mead, the groom's mother. In the early evening Mr. Mead and his bride left for a trip to Havana, Cuba. They will return to Miami, where they will divide their residence between that city and Atlanta.

Included among out-of-town guests attending the wedding were Major and Mrs. Thomas S. Sinkler Jr., and Miss Helen Sinkler, of Charleston, S. C.; Mrs. Berne Mead and Mr. and Mrs. Charles W. Mead, of Chicago; Dr. and Mrs. George H. Lange and Miss Kay Lange and Mr. and Mrs. W. H. Artley, of Savannah, Ga.

My Day By ELEANOR ROOSEVELT

NEW YORK, Thursday.—Last night I had the pleasure of listening to Pearl Buck tell about the land she knows best—China—and afterward I took the midnight train for New York.

Mrs. Hopkins, Miss Cook and I had breakfast together and then I spent a good part of the morning at the neighborhood playhouse studios watching a class in dramatics and seeing the auditions given to prospective students.

This afternoon has been largely spent in getting an idea of the work done by the National Youth Administration in the city of New York, I like Mr. McCloskey, like young people, which is, after all, half the battle in getting their point of view.

We first visited a naturalization bureau on West street, where several hundred young people are employed. I think it must be a satisfaction for them to know how great the assistance is that they are rendering in this busy government building. The registration was way behind and they are gradually catching up—thanks to the work done by these youngsters.

There was a cunning, stolid little boy we passed in the halls, whose mother and father were getting out their papers. As I looked at all these people and thought of the new citizens that were being made, I was glad that the N. Y. A. was getting a chance to help in the making of future citizens and that the young people may see how very highly prized citizenship is in this country and how many people want it.

From there we went to the Hudson Guild, where young people are helping in every branch of the work. I had the unique experience of nearly hearing "Happy Easter" said in four different languages, and finally all said it in English. We ended up at the colored Y. W. in Harlem, where the N. Y. A. again seems to be doing satisfactory work.

A busy day but an extremely interesting one and, from my point of view, satisfactory; for if we can't cover the whole world it is satisfactory to know that what is being done is worth while.

'YOUR FIGURE, MADAME!'

By IDA JEAN KAIN.

The science of keeping slim lies in calories, but the art of keeping slim lies in exercise. After you have learned the science of slimness, you must continue to exercise against adipose tissue. First and foremost, exercise is the key to symmetry. It takes only half as much exercise to keep a good figure as it did to get the curves under control. Only a small amount of daily exercise is needed to tone the muscles and maintain a slim figure.

IDA JEAN KAIN, metry—but that small amount is very essential. In modern living, it isn't easy to get enough exercise, most of us are forced to live under conditions that are conducive to inactivity. As a result, planned exercise is growing in importance. Continue to do the type of exercise you enjoy most, a daily walk, sports, the daily dozen, or keep in gym trim through a class. Sports afford a joyous activity which increases muscle tone, and everyone should have some outdoor recreation on which she can depend for exercise. Take your choice but deliberately plan your exercise in order to keep fit rather than fat.

Regularly counts more than ever in keeping slim. A small amount of exercise taken consistently is far more effective than occasional spurts of strenuous activity. You can't make up for lost exercise. The exercise which brings the places susceptible to fat storage into action is the one which will keep the figure in trim. The exercises in the "daily half dozen" leaflet are real figure savers, particularly the movements which are directed toward hip, thigh and abdominal muscles. These muscles are the most neglected as most of our every day activity requires continual use of the small muscles of the body, such as the hands and fingers, the feet and the legs, and neglecting the larger muscles so important in the maintenance of high vitality as well as a good figure.

Another set of muscles often overlooked are the triceps, those muscles on the back of the upper arm. Since

the arms usually hang down at the sides, these upper arm muscles are not called on in exercise, and as a consequence this region is prone to become soft with flabby, hanging flesh. As a general rule, the exercises that helped you to get slim will help you to keep slim. If your waistline is a fat-susceptible area, the stretching exercises must be included in your daily program. Use the waistline as a weight barometer, and see that the small space above it does not bulge. Also, since most reducers need hip and thigh exercises for a more symmetrical distribution of weight, these exercises should be continued. Gals get the pointer! Make your lads love you and you can hold on to your bad habits and get away with anything short of murder; for love blinds even the lads.

There are seeds of spouses who don't meet any of the specifications laid down in Solomon's list of requirements for the virtuous wife (virtue being used in the broad sense of the word, of course), yet women who ride high on the crest of the marital wave. They bank in the admiration and approval of their husbands and all because their husbands are in love with them. To the man that loves her, an ugly woman is a beautiful one; a stupid one smart, a stingy one admirably thrifty, an extravagant one amusingly careless, a mean one sweet and a hard one tender.

Addison, the English essayist, wasn't the first nor the last man to marry a frumpy female and find in her his heart's desire. She was the laughing stock of all who could see straight, yet he never lost the opportunity to point her out to his friends. We have all smiled indulgently at an old man beaming on his wife, wrinkled wife and wowing that she has grown prettier with the years.

I know a woman who has no more idea of making a comfortable home than a puppy has of building a bird nest. Her living room looks like a cyclone had struck it. Overcoats, hats, sweaters, book, and articles are draped over every piece of furniture that will hold them. The children's toys are strewn all over the place and the mother is usually in a good-natured uproar. The disorder and confusion of the home would drive the average man crazy, but not this woman's husband. He recently remarked to a friend that he was glad he didn't have a wife who worried herself to death over house-keeping, such as she does on the furniture and ashes on the hearth.

There are wives who hit the home base on the run from one party to another, let the servants run their lives and let their husbands and children get along the best way they can, yet instead of moaning over their wives' neglect the husbands boast proudly of their wives' popularity. There are women who are so kitchen-conscious and pot-minded that no idea from outside can percolate through their minds, yet their husbands regard them as the flowers of the feminine virtues. There are sharp-toothed tigresses of whom neighbors and friends are in quelling fear, yet to their husbands they are entertaining, keen-witted cut-ups.

A foxy feature writer wishing to focus attention on a patriotic article from his pen captioned it: "If a Man Loves a Woman All Her Ways Are Dear." He got the attention of his female public with that heading. Every woman who saw it, ran avid eyes up and down the double column to get the last drop of the sensationalism. They were all disappointed, however, for there was no further mention made of the subject beyond the suggestion contained in the headline. Gals get the pointer! Make your lads love you and you can hold on to your bad habits and get away with anything short of murder; for love blinds even the lads.

On the Air Today
NINO MARTINI—The famous "Prize Song" from Wagner's opera, "Die Meistersinger," will be featured by Nino Martini during his broadcast with Andre Kostelanetz' chorus and orchestra heard over WGST at 8 o'clock tonight. Kostelanetz has prepared special settings of Victor Young's "Sweet Sue" and "Digga Digga Do."

ZIEGFELD FOLLIES—The hilarious sketches by Fannie Brice and the ballad singing of Benny Fields will be the highlights of the "Ziegfeld Follies of the Air," heard over WGST at 7 o'clock tonight.

Miss Brice, Broadway's queen of comedy, will be supporting her Fatti Chapin, Jack Arthur and Al Goodman's orchestra.

TOURS IN TONE—The orchestra directed by Emory Deutsch will take the radio audience on several "Tours in Tone" during the broadcast of that title heard over WGST at 2:30 o'clock this afternoon.

Numbers offered include "Ware You There?" and "The Crucifixion."

TOURIST RECORD BROKEN.
MIAMI, Fla., April 10.—(P)—The "Florida Special" tourist train over the Florida East Coast and Atlantic Coast lines, which concludes its 40th season April 18, has broken all previous records, officials said here today, by bringing 30,341 southbound passengers into Florida since January 8.

Culbertson on Contract

By E. J. CULBERTSON.

THE TENACE THEORY.
Every few years some bridge authority or other bobs up with a startling "new" theory of no trump bidding. He tells the world that the hand holding tenaces (ace-queen combinations, and guarded kings) should make haste to bid no trump so that he will be able to play the hand. Then the opponents, with their opening lead, will be unable to lead through his tenaces.

Following the announcement of this theory, a few years of the type which always is on the lookout for something new, begin to bid no trump frantically until they finally learn that the tenace theory may look good on paper but is of doubtful value in practical play. It is not worth while to make bids for which one's hand is not suited, merely because the hand happens to contain one or two tenaces. Partner is just as likely to hold a tenace or two of his own, in which case the normal course of the bidding has been interrupted to no avail.

There are cases, however, in which a player should keep in mind the value of having the opening lead come up to his hand, particularly in the case of slam bids, when the loss of two immediate tricks is fatal. Leslie Weisdon and Cecil Belanger, of New York, playing in a recent tournament, reached the best contract on a big hand because this fact was kept in mind.

Neither side vulne. bid.

The bidding:
North East South West
1spade Pass 3clubs Pass
3spades Pass 5no tr (final bid)

Belanger held the North hand and Trump led the south hand. The six and seven of spades were the only cards that could have determined whether or not North had the two aces necessary for a grand slam. The important thing, however, was that "don say a probable slam if he could be sure that one of his kings would control the second round of the opponents' strongest suit."

Not all the North-South pairs of this tournament were so successful. Fully half of them played at a "contract of six spades and were defeated one trick by an opening heart lead which permitted West to take his ace and queen at once.

TODAY'S QUESTION.
Question: Is it possible for 12 players (three tables) to play a duplicate game in which each player plays with every other player at least once?
Answer: It is easy to arrange by giving each of the 12 players a number. On the first round, 12 and 1 play against 6 and 5, 2 and 9 against 10 and 11, and 3 against 5 and 11. After the round the players change positions, player 12 remaining seated and each other player taking the place of the next lower numbered player. (1 follows 11, 2 follows 1, etc.) The table with this movement is that each player must play three deals with each other player, 33 in all, and four hours or more are required to finish.

Senator Will Confer With Roosevelt for Additional Funds.
WASHINGTON, April 10.—(P)—Despite refusal of congress to appropriate funds for the controversial ship canal across Florida, Senator Fletcher, democrat, Florida, said today he expected work to continue on the \$148,000,000 undertaking.

The senator said he would confer with President Roosevelt again soon on the project. He said he had not received any statement from Mr. Hopkins, works progress administrator, that none of the \$1,500,000 relief appropriation would be used for the canal.

SPECIAL SQUAD By Courtney Ryley Cooper

Sandy unlocked the handcuffs. Lee Bronson rubbed his wrists swiftly. A hand passed over his ghastly features. Then slowly he straightened.

"Well," came with an attempt at the casual, "if I don't see you fellows again—"

With that he began to walk, while Sandy's squad raised its rifles, beads centering about this slow moving, lank figure. Lee Bronson must have known that, but he did not look back. He did not even glance to the right or left—he only went straight on, placing more and more ground between him and any possible avenue of escape.

He covered half the distance to the house, still without the slightest sign of life from the hideout. Nearer he went and nearer. Now he was within 200 yards. He halted and called, the words drifting faintly back to the waiting men:

"Come on out, you fellows. You haven't got a chance. It's the G-men! And you're cornered!"

There was no reply. Again he took up his lonely journey. The distance was cut to a hundred yards to 75, then 50.

Blazing rays of flame, brick yellow in the dying day, shot from two windows of the house, in a rattling stream of staccato fire. Instantly, from all sides, the heavy monitors, with their three-mile range supplanting the vicious little .38s took up the challenge, seeking desperately to place Lee Bronson under cover of protecting fire.

It was useless. The squad saw him stumble forward, saw him stagger, then whirl about, as though caught by a tremendous hand and sent spinning. Then, to the continued converging of machine gunfire, they watched him go down and remain motionless.

Now they could shoot without hindrance. The rate of gunfire became incessant. The fire from the cabin was the heavily ironed reports of Browning automatic rifles, the gangster's pet for long distance. Bullets shrieked overhead, cutting limbs from the gnarled trees.

Meanwhile, sprawled where he had fallen, the body of Lee Bronson lay motionless. Looking toward him, as he affixed a new clip of cartridges to his rifle, the inspector could not help wondering if the young gangster had not given a measure of thanks for the streaming gunfire which had ended his life. Strangely, it seemed, the huddled form of Lee Bronson, in death, represented accomplishment. In life he had been wholly a figure of destruction. Keep your aim low. Start cutting a line straight along the cabin three feet from the ground!" Sandy shouted. "And slow up the fire!" Buck supplemented.

A mortar boomed. The sky exploded into blue-white light. The inspector leaped into action.

"All right. Here's where we take it!"

Rushing men swept for the cabin, dodging swiftly into the protection of pump and haystack and shed before the final dash to windows and doors. There at last they lost their tension. Andy and Jock and Jimmy Lureh lay sprawled in perpetual silence. They who had dealt death had received death, for their debts to society they at last had been given a receipt—in the lead and steel of bullets.

Ten days later, on his way from Washington to an investigation in San Francisco, Sandy Ross dropped off at Kansas City and went to see Jane Bronson. Again there was the stilted meeting, the fencing for words, the attempts to avoid conversation on subjects painful to both. All failed. At last Sandy said, somewhat abruptly: "I'm getting a new assignment after this San Francisco job."

"You are?" Jane Bronson brightened.

"Yes," he said. "I'm going to be in charge of the Special Squad."

"You mean you're being promoted?"

"Well," said Sandy Ross hesitantly, "I guess you'd call it a promotion. They need a second man in the office of the supervisor of pursuit."

"And they've given you the job?"

Sandy nodded. The girl came to him. "Are you glad?"

Sandy Ross was plainly nervous. Hands which were so steady on a gun grip were shaking perceptibly. He swallowed more often than usual. His forehead was perspiring.

"Well, I'm pretty glad. You see it means—well, I won't have to live in trains and airplanes—have a place to go to—you know—a home and all that—"

"I?" Slowly she walked to the window. "What is there for me to do, Sandy, except just what I'm doing?"

He followed her.

"Well, don't you think you ought to consider something else? You can't keep up this lonely life. It isn't natural. It's foolish—girls like you don't come by the dozen. You ought to have a home, and somebody who'd take care of you and love you and—"

Her laugh seemed unreal. Queerly hopeless, she faced him.

"Who'd want me, Sandy?" she asked.

The man felt a sudden constriction in his throat. In an instant her features, her soft hair, her luminous eyes, all had become blurred to him, beautifully misty. Almost reverently he raised his arms until his hands touched her shoulders, until he had enveloped her, enfolding her, right to him, until his lips were warmly close, hers being welded with his. He whispered:

"I want you, Jane."

THE END.

The DEBUNKER By John Harvey Farley, Ph.D.

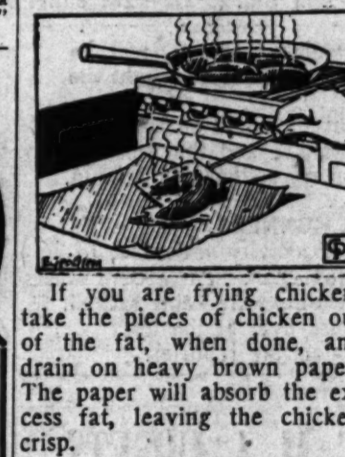

Many people have the ridiculous idea that the more sunshine they can get the healthier they will be. Sunbathing has become a fashion, and dangers abound in sunbathing. Two hundred thousand working days are lost each year because of illness due to sunburn, and many people have died from too much exposure. If more than half of the body is sunburned, serious results are experienced, often death. A small dose of the sun's ultra-violet rays is harmful to most people, but a large dose may cause serious internal damage, even including blindness. If the skin is blistered, infections are possible through the broken skin. When the body is wet, the skin burns faster than when dry.

UNCLE RAY'S CORNER

A LITTLE SATURDAY TALK.

Dear Reader: As I write these words, I am in Cuernavaca, a little city 57 miles by highway from Mexico D. F. For quite some time, I have been in the "torrid zone," but the weather has been cool enough, because the ground is so high above sea level. Mexico City, where I have spent most of my time, has an altitude of close to a mile and a half.

A good thing for people to remember when they go from low levels to the mountains is that they should "take things easy," at least during the first two or three weeks. There should not be much hiking or other exercise. The heart has to work hard enough just to give a person the proper amount of oxygen from the thin air. After a person stays at a high level for some time, his body supplies his blood with a great number of red corpuscles, and this helps give the system oxygen more easily.

There are many things about Mexico which I have not told so far. People thinking about coming here should know the drawbacks as well as the interesting sights. Always remember that Mexico is a southern country, and there are about the same problems to meet as when one goes to Spain, Portugal or southern Italy.

Health officers in Canada and the United States advise tourists bound for Mexico to be inoculated against typhoid fever. Tourists are also advised to boil water and milk before drinking it—this does not mean that the water supply of all Mexican towns is bad. Some of it is very good, but it is believed that the safe thing is to follow the rule about boiling. The highlands of Mexico are safer places to visit than the lowlands or coast regions.

I feel sure many readers have wanted to ask about the church situation in Mexico. I cannot give a complete picture of it at present, but I have asked many Mexicans and foreign residents about it. The story is different in the various states. In one city in western Mexico, I was told that all churches were closed and people had to go to a nearby town to attend church. In all other places I have visited, at least some of the churches are open. In Mexico City, people can attend mass in certain churches, but other churches are open only for prayer without regular service.

Before long, I shall be turning northward, "homeward bound." While traveling, I'd worry about my mail from readers if I did not know my helpers take good care of requests for letters.

Sincerely yours,

Uncle Ray

Crackers Open Defense of Title Against Lookouts Today

Well, my brave lads and lassies, this is the day. "Der Tag," as the late head of the Hohenzollern clan was wont to say along in 1914.

This is the day our noble lads, the Crackers, will open the 35th annual baseball championship chase with the Chattanoogaogs as their foes.

And Jimmy Braddock, a first-rate fighting man and champion of the world, is expected to be there to bat at the first ball.

Joe Gould, one of the smartest managers in the game, if not the smartest, will be present with him. It is going to be quite a day.

They are to be in our town on a business mission and hope to see most of the ball game. A very fine person, Jimmy Braddock, who started saying "Braddock's gonna win" before the Max Baer fight, and kept it up, is saying the same thing this spring with the Joe Louis fight coming up in the fall.

But I wonder. The topic is baseball. Some 20,000 of the faithful are expected to be on hand this afternoon, the rose-colored glasses of the glad springtime perched on their noses.

It was just yesterday afternoon that Bobby Durham, the stout young right-hander who will throw the baseball for our nine today, walked into the baseball office where sat Joe Engel, president of the Chattanoogaogs.

"Are you all set to pin back the ears of these visiting flood refugees?" asked one of the help.

"I certainly am," said Bobby Durham.

Mr. Engel winced and moved uneasily in his chair.

Our Mr. Durham sounded very convincing indeed. Joe immediately sent for Clyde Milan, his manager, to console him.

THEY EITHER ARE OR AIN'T.

Mr. Claud Bond, the umpire, was around.

He is in his second year as an umpire, having gone into the profession with all the zeal of one entering a religious order, which the umpiring profession most emphatically is not.

He is the young man who was asked what he would rather do—eat a fine chicken dinner or umpire a ball game. He replied he would umpire the game and eat the chicken afterwards.

"Give us the close ones," called out someone.

"There are no close ones," said Bond; "they either are or ain't."

Which is much more grammatical than was Bill Guthrie, who once umpired in this league.

"I guess you run into a lot of close ones, Bill," said a friend.

"There ain't no close ones," said Bill. "They are either dis or dat."

Steamboat Johnson, the eminent author, will be teamed along with young Bond, to whom he taught the tricks of the trade.

The game here today is the most important one of the opening series. And the best young umpire and the best veteran umpire in the league are very properly assigned to Atlanta.

THE HOT DOG KENNELS.

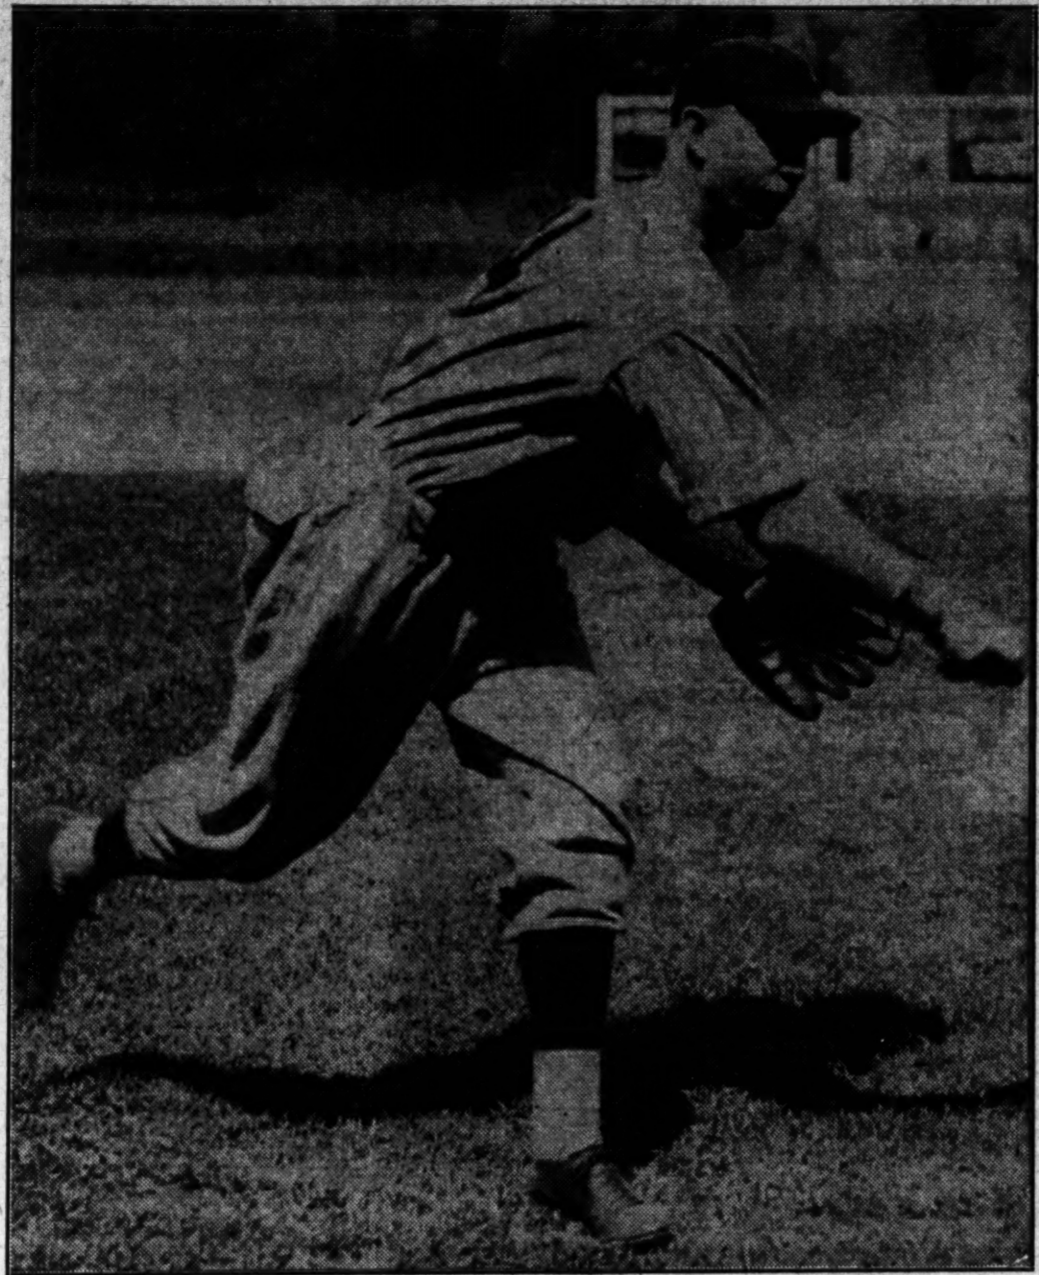

The ball park was a beehive of activity yesterday, to employ a new simile. Things were moving in. There were drinks of all kinds. And fresh roasted peanuts were being sacked.

There was a slight barking noise over at the left.

"What is that?" asked your inquiring reporter.

Continued on Second Sports Page.

Starting Pitchers For Opener Today

The veteran Alex McColl, left, will pitch the opening game for Chattanooga today if the weather is the same as it was yesterday. Manager Clyde Milan said last night. McColl had only two weeks of spring training but he has been responding nobly of late. McColl, who won 21 games last year, is a very shrewd and cool performer.

Sid Cohen, a left-hander, will start if the weather is cool. Bobby Durham, the little round man, right, is Manager Eddie Moore's choice. Durham reached the heights in a spring exhibition game against the A's. He held them hitless and runless for seven innings. There will be a colorful parade at noon today, headed by Mayor James L.

Key, Earl Mann and Joe Engel. Mayor Key will toss out the first ball to Miss Eleanor Spalding, who will pitch the first ball to none other than Heavyweight Champion Jimmy Braddock, who will attempt to knock it into the republican stands. Steamboat Johnson and Claude Bond, the local boy, have been assigned as the umpires.

By Jack Troy.

It is to be hoped that it will not be necessary to take anyone out of the ball game this afternoon at 3 o'clock when our Crackers, champions of the Southern league, go out to battle the lusty Lookouts in the opening game of the 35th consecutive Southern league pennant race.

The game is attractive enough in itself, but there will be the added fanfare supplied in large measure by the old mountaineer, Joe Engel, who has here to carry the news to the folks back home, his two homing pigeons, Home Johnson and Back Allimony, a flying fool.

Bobby Durham, the little round man who is starting his ninth season of professional baseball and who will be the pitcher for the Crackers, will bounce out to meet Alex McColl, the grand old veteran of the Chattanoogaogs pitching staff. They're both right-handers.

MCCOLL CHOICE.

McCull will be the starting pitcher. Manager Clyde Milan declared last night, if the weather continues warm and the sun continues hot. Otherwise, Sid Cohen, who probably is in the best shape of any Lookout hurler, will take the mound.

Alameda Al Browne, left-handed hitter and thrower, will be thrown in there to sink or swim today. Browne will play right, regardless of the pitcher Chattanoogaogs use, Manager Moore said yesterday.

Moore also changed his batting order a bit yesterday, shifting Dave Harris into the clean-up position. Harris has been pounding the ball lately and also has drawn a couple of intentional walks.

RICHARDS FIFTH.

Paul Richards, who will make his debut today as the new Cracker catcher, will bat fifth. Nig Lipscomb, originally hitting in the clean-up position, will bat sixth, with Browne, Chatham and Durham following.

The Crackers are all set for the opener. The infield of Hill, Cohen, Lipscomb and Hooks is in great shape. The outfield of Harris, Hamel and Browne will easily hold its own, offensively and defensively.

Durham is in good form and Richards is recognized as the best prospective backstop in the Martin circuit. In event of a pinch-hitter is used, it will be Jim Galvin, second-string catcher, who is a natural-born hitter.

LOOKOUTS A GOOD.

Chattanoogaogs has a good club in its own right. There's an outfield embracing Taylor, Wright, former Cracker; Bob (Speed Queen) Loane, the base stealer, and Freddie Sington, the former Cracker who is ready to make this his best year in baseball. Big Freddie is in great shape. He's hitting clean-up.

The Lookout infield really leaves nothing to be desired. There's Staley Brown at third, Joe Engel at second, Johnny Mihalie at second and Harry Taylor, former Cracker, on first. The right side of the infield is considered by Clyde Milan to be the strongest in the league.

The catching department is fixed up. Sammy Holbrook, recently acquired from Washington, is an ace. He'll do the receiving today.

COHEN SUNDAY.

Manager Milan intends to use Sid Cohen on Sunday in the event he doesn't pitch today. And it is likely he will pitch today, according to present plans. Schmidt is in the best form of his career.

There will, of course, be a gala parade today, starting at noon. The parade, headed by Mayor Key, Earl Mann and Joe (Big Blow) Engel, will form on Spring Street near the Terminal station.

Sympathy band will be in the parade. Everybody naturally loves a parade, but they will be crazy about this one because of a few wrinkles added by Engel.

DRESSED TO KILL.

His colored Symphony orchestra will be dressed fit to kill. Flashy costumes, including big tumbler hats, colorful ties and even white wigs, will be worn by the five members of the orchestra who may vie with the Tech High and police bands in providing the music.

The parade will proceed through the principal sections of the city and thence to the ball park.

The ceremony there will include the pennant and flag-raising ceremony. Mayor Key will toss out the first ball and Miss Eleanor Spalding, daughter of Hughes Spalding, will deliver the first ball to James J. Braddock, heavyweight champion of the world.

The crowd, which is expected to surpass 20,000, will then settle back and watch the Crackers and Lookouts go to work.

It's to be a grand occasion. It may be that it will be one of the greatest opening days ever witnessed in a minor league town. For Atlanta is, of course, the best minor league town in baseball.

THE OLD APPEAL.

And so it is taken out to the crowd. The ball game takes me out to the crowd.

G. M. A., M'CALLIE CLASH ON TRACK

G. M. A.'s track team will meet McCallie school of Chattanooga, today. It will be the second of a series of eight meets during the season.

Today's meet will be divided into two sections, with the field events being run this morning at 9 o'clock on the College Park campus and the track events to be run this afternoon at Grant field, in conjunction with Tech's dual meet.

Following today's events, the Cadets will face the Tech freshmen, Boys' High, Georgia freshmen, Tech High, Lanier High and Darlington school, of Rome.

The Cadets will enter the annual high school meet May 1 at Grant field.

Cadet Golfers Meet Chattanooga.

G. M. A.'s golf team, under the direction of Major Braddon, will meet Baylor school at Chattanooga this morning. The Cadets left the city late Friday afternoon.

Those players making the trip were Shortess, from Idaho; Fitten, from Arkansas; Williams, from Evanston, Ill.; Halse from Chicago, and Murray, from Michigan.

A return match will be played on the College Park municipal course on May 6.

Manley and Gillespie Advance in Doubles

NEW ORLEANS, April 10.—(P)—Louis Faquin, of Memphis, Tenn., and Wesley Barnett, of Baton Rouge, La., won their way to the finals in the singles of the Tulane interscholastic tournament here today.

Faquin, top seeded in the tournament, put on a strong rally to defeat Barnett, of Atlanta, 4-6, 6-1, 7-5, in the semi-finals.

Barnett, Louisiana State champion, disposed of Billy McGeehe, of New Orleans, 6-4, 6-3, in what some observers considered an upset.

Results today follow:

QUARTER-FINALS.

Louis Faquin, Memphis, defeated Tabb George, New Orleans Academy, 6-3, 6-2; Wesley Barnett, Baton Rouge, defeated Campbell Gillespie, Atlanta, 6-1, 6-3; Malcolm Stanley, Atlanta, defeated Larry Choplin, St. Andrews, 6-2, 6-2; Billy McGeehe, Fort, defeated Dan Canale, Memphis, 6-1, 6-1.

SEMI-FINALS.

Faquin defeated Manley, 4-6, 6-1, 7-5; Barnett defeated McGeehe, 6-4, 6-2.

DOUBLES RESULTS.

Faquin and Canale, Memphis, defeated A. Shuman and S. Shuman, Newman, default; Barnett and Wilkinson, Fort Albany, 4-6, 6-4, 6-3; Manley and Gillespie, Atlanta, defeated Lagarde and Oster, Warren, 6-4, 6-3; McGeehe and Barnett, Fort, defeated Blood and Canale, Memphis, 6-4, 6-3.

West End Holds 50-Bird Prize Shoot

The West End Gun Club's regular Sunday shoot will consist of a 50-bird prize event for engraved targets.

A special 100-bird event will be fired in the afternoon, along with the team races which have proved so popular in recent shoots.

The program will open at 9 o'clock and continue as long as daylight will permit.

MEMPHIS, Tenn., April 10.—(P)—Judge John D. Martin, president of the Southern Baseball Association, left tonight for Atlanta to be present at the opening game there tomorrow between Atlanta and Chattanoogaogs.

GOLFERS FACING BUSY WEEK END

By Roy White.

Atlanta's golfers face one of the busiest week-ends of the spring season with numerous club tournaments in addition to the regular Saturday and Sunday events scheduled.

Anasley Park will conclude all first and second round matches of the best ball tournament today and Sunday. The finals in all flights of the best ball tournament are scheduled for next week-end.

The qualifying will extend through Saturday, April 12, and one week will be given over to each round of play.

The regular weekly blind bogey on both East Lake courses will be played this afternoon and will be followed by the weekly dogfight Sunday afternoon on the No. 2 course.

East Lake Opens Golf Committee Meet.

East Lake professionals will open the annual golf committee trophy tournament. It will be the first of a series of events to last through the spring and summer months.

The qualifying will extend through Saturday, April 12, and one week will be given over to each round of play.

The players may qualify and play over either course, so long as both participants agree. Handicaps will apply in the matches but not in the qualifying round. The first round must be completed by April 25.

The regular weekly blind bogey on both East Lake courses will be played this afternoon and will be followed by the weekly dogfight Sunday afternoon on the No. 2 course.

Children's Classes Open Today.

George and Harold Sargent, East Lake professionals, will open the annual spring and summer classes for young members of the club at 9 o'clock this morning.

The classes will continue every Saturday morning until next September. The progress of the class will be shown in moving pictures.

Druid Hills Stages Blind Bogey Today.

Druid Hills will hold another of the weekly blind bogey tournaments this afternoon.

Newspaper Tourney Extends Qualifying.

Qualifying rounds for the spring newspaper tourney sponsored by the West End Golf Club have been extended through Tuesday. It was announced Friday by E. T. Mize, the club professional.

Match play will start Wednesday and three days will be given over to each round of play.

The tournament will be extended over a period of two weeks so that

TECH GOLFERS DEFEAT VANDY

NASHVILLE, Tenn., April 10.—(P)—Georgia Tech's golf team bested Vanderbilt, 45 to 3, on the Belle Meade course here today in the Commodore's first meet of the season.

Pete Curley and Richard Hale Jr. were the only Vanderbilt players to register a point. Curley, who has the best medal score of any Commodore in his 75, won 2 points in his match with Billy Street, who also carded a 75.

Hale, playing Tommy Barnes, won 1 "hole" as he posted an 82.

Jimmy Terry, Nashville city golf champion, was badly off form and barely broke 90 as he lost all 3 points to Stanley Holdich, who turned in a 77.

Bobby Oliver, of Vandy, posted an 80 but Billy Ginn, his rival, fired a 73, 2 over par for the Belle Meade layout, and took all 3 points.

The first score came in the second quarter when Puryear passed 20 yards to McGeady for a touchdown. Clyburn accounted for the second touchdown in the third quarter when he went off left guard for 12 yards and scored.

Puryear kicked the extra point, making the final score. Nearly all the gains of any importance resulted from passes.

Eight of the first downs were by the serial route and netted the longest gains of the day.

Reynolds, Puryear, Clyburn and Schwabe were the greatest ground-gainers of the game. He defensive work of "Goon" DeHart was outstanding.

Smithie Linksman Beat Athens High

ATHENS, Ga., April 10.—Jack Cook and Ralph Barnes led Tech High's golf team to a 17-to-victory over Athens High on the Country Club course here this afternoon.

Cook set the pace with a 75, while Barnes was two strokes behind. Upchurch gave Athens its lone point.

COLLINS RE-ELECTED.

NASHVILLE, Tenn., April 10.—(P)—Coach Wilson Collins, of Knoxville High school, was re-elected president of the one-year-old Tennessee High School Coaches' Association today.

Bunching hits in the first and seventh innings, G. M. A. defeated Boys' High, 6 to 3, Friday afternoon at College Park in the feature of the third round of the Big Eight schedule.

It was G. M. A.'s first victory and the first defeat for the Purple. The Cadets scored four runs in the first inning on three hits and a walk and added two more on two hits and two well-placed sacrifices.

Boys' High scored in the eighth and ninth innings, with Perkins's triple scoring Dye ahead of him.

In addition to Perkins, the hitting of Dye and Ashburn, was outstanding for the Purple.

Sutiles, with two for four, and triples by Argudine and Ferguson featured for the Cadets.

Southern League Openers Expected To Attract 50,000 Today

BIGGER CROWDS, HOT FLAG RACE ARE PREDICTED

Vois at Knoxville, Barons at New Orleans, Pebs at Memphis.

By Kenneth Gregory.
Associated Press Sports Writer.
The southern's biggest sports show—the Southern association baseball pennant race—opens today for a run of 154 days.

Optimistic over prospects for one of the most successful seasons in the history of the ancient league, club owners predicted a close race, increased gate receipts and revived interest generally among the fans.

Gala celebrations, parades led by blaring bands and the contest for the opening day attendance trophies awarded by President John D. Martin gave a touch of holiday spirit to the four contests that end the campaign off on the 1936 battle for the flag.

Indications were that close to 50,000 fans would trek into the parks for the initial skirmishes that call for Chattanooga at Atlanta, Nashville at Knoxville, Birmingham at New Orleans and Little Rock at Memphis.

The Atlanta Crackers, 1935 champions, were favored to repeat, with the strongest contention coming from New Orleans, Memphis and Chattanooga.

ALL STRONGER.
All eight clubs, however, have strengthened their ranks for the pennant struggle, thus forecasting a more interesting and tighter race than a year ago, when Atlanta finished six games ahead of New Orleans and won the flag in the Shaugnessy playoff.

Graduation of the league into a new Class A-1 rating, installation of facilities for night baseball in all parks except Knoxville and the addition of many new players gave vent to the optimistic predictions from club owners.

The new classification allows each club an additional Class A player. Each team will be allowed to carry a squad of 19 for the first and last 30 days of the season, but in between the limit is 11 Class A men and six rookies.

The Shaugnessy system, with alterations, prevails again. This year, however, the team finishing on top after the 154-game schedule is awarded the pennant and a player bonus of \$2,000. The winner of the Shaugnessy playoff series earns the right to engage the Texas league champion in the Dixie Series.

ATLANTA'S MARK.
The contention for the opening day attendance trophy among the four larger cities finds the clubs shooting at the all-time mark of 18,771 established last year by Atlanta.

Atlanta hoped to better this figure, but prospects were for a crowd of around 18,000 at the best. New Orleans set its attendance goal at 17,000 for its opening game with Birmingham.

Parades were scheduled throughout the morning in Atlanta to stir up the morning and attract the fans to Ponce de Leon park. A "top the cup" committee, in charge of arrangements at New Orleans, planned a huge parade with plenty of bands. Both cities reported large advance ticket sales.

Around 8,000 to 8,000 were expected to witness the start of hostilities in Knoxville and Memphis.

The teams play at the same fields again on Sunday. Monday is an off-day and then the battle is resumed on Tuesday with the scenes of action reversed.

Here's how the Southern association teams finished in 1935:

Team	W.	L.	Pct.
Atlanta	91	67	.572
New Orleans	86	72	.543
Memphis	84	74	.531
Nashville	83	75	.523
Chattanooga	75	75	.500
Little Rock	78	78	.500
Birmingham	69	85	.448
Knoxville	57	95	.375

Champion in Atlanta Today

James J. Braddock, world's heavyweight boxing champion, is visiting in Atlanta today. It will be a business trip for the popular conqueror of Max Baer, but Jim will attend the Cracker-lookout opener at Ponce de Leon this afternoon and swing at the first ball thrown by Miss Eleanor Spalding. Braddock is accompanied by Joe Gould, his resourceful manager. Associated Press photo.

Braddock First Batter At Ball Game Today

Atlantans Will Find Champion Jim Clean, Decent Man, Declares Ralph McGill.

By Ralph McGill.
Jimmy Braddock, the heavyweight champion of the world, arrived in Atlanta last night. He is accompanied by stormy little Joe Gould, the manager who stuck through thick and thin to a fighter worth sticking to. They were the heroes of the greatest upset in pugilistic history—the victory of Braddock over Baer.

Roche Meets Karl Davis Tuesday

Dorv Roche, campaigning vigorously for a crack at Dick Shikat, new titleholder, faces Karl Davis, the blond man from Ohio, in the feature bout of Henry Weber's next mat show at the Atlanta theater Tuesday night.

Count Zernoff, the skillful Ukrainian, who has lost only to Orville Brown in Atlanta, tackles a newcomer, Jack Morgan, of Texas, who has been highly recommended by a strong and rugged performer to Matchmaker Weber. These men meet in the hour-limit semi-windup. Eddie Newman, Hebrew heavyweight from New York, and Cliff Olsen, Swedish grappler, open the show in a 30-minute match at 8:20.

Roche, always popular here, is traveling at a faster pace than ever, his last two starts resulting in a draw with Orville Brown and a clean-cut victory over Pete Bauer. Davis, however, owing to his size, strength and complete disregard for law and order, is always a tough boy to handle, and may pull a surprise in this one.

Atlanta will learn this—Jimmy Braddock is a clean, decent man. He is a devoted husband, a fond parent and a real man who stood the test of poverty and all the bad breaks and came back with the title and thus back into the money.

And he's a real fighter. He isn't afraid of anything—unless it's making a speech. And when he defends his title he will make a great fight of it. The odds are again him. He fights best under those conditions.

And don't overlook Joe Gould—valuable and smart. It's a pleasure to welcome the two of them to our town.

DURHAM, MCCOLL TO HURL OPENER
Continued From First Sports Page.

Buy me some peanuts and cracker Jack, I don't care if I never get back. Let's set a new attendance record. A crowd of 21,000 would smash the only remaining one. And that is the record of 20,084 established in 1927 at Birmingham in a Dixie Series game. We ought to break it and win the attendance cup by a staggering majority.

The champion Crackers are deserving of your wholehearted support. It has mentioned before, but will bear repeating. We carried the league last year. We have strong backs and no weak minds. Especially in the Cracker front office.

President Earl Mann may not be as handsome as Joe Engel, but he is smarter. And they pay off in these times on brains.

Official Scorers Are Announced.
MEMPHIS, Tenn., April 10.—(AP) Official scorers for the Southern baseball association were announced here today by Judge John D. Martin, president.

They are: Jack Troy, Atlanta Constitution; Wirt Gammon, Chattanooga Times; and Wilbur Kinley, Chattanooga News; Bob Wilson, Knoxville News Sentinel; Allen Tilden, Little Rock Democrat; Herbert Caldwell, Memphis; Blinkey Horn, Nashville Tennessean; and Fred Digby, New Orleans Item-Tribune.

A Birmingham scorer has not yet been named.

AUBURN BEATS GEORGIA, 3 TO 2, IN FIRST GAME

Tigers Rally in Eighth To Win Pitchers' Duel.

MONTGOMERY, Ala., April 10.—A two-run rally in the eighth overcame Georgia's one-run margin and enabled the Alabama Poly Tigers to open their Southeastern conference schedule here Friday with a 3-to-2 victory over the Bulldogs. The two clubs meet again here Saturday.

The Bulldogs opened up the sixth with Alf Anderson gaining a walk. He stole both second and third and scored on John Rucker's single. Rucker advanced to third on Jim Cavan's single and scored when Fenton dropped Hamm's throw on a delayed steal.

Both Frank Johnson, Georgia ace hurler, and Mitchell pitched fine ball and were accorded excellent support. Treadaway and Henry Wagner starred afield for the Bulldogs with sensational catches. The plainsmen's keystone combination of Hitchcock and Hamm flashed in turning in the lone double-play of the game.

Georgia: Anderson, 3; Cavan, 2; Fenton, 2; Hamm, 1; Johnson, 1; Mitchell, 1; Rucker, 1; Treadaway, 1; Wagner, 1. Total: 10 runs, 10 hits, 10 errors. Alabama: Cavan, 3; Fenton, 2; Hamm, 1; Johnson, 1; Mitchell, 1; Rucker, 1; Treadaway, 1; Wagner, 1. Total: 3 runs, 3 hits, 3 errors.

Duke's Golfers Beat Georgia.
DURHAM, N. C., April 10.—(AP)—Led by Cliff Perry, who turned in a one-over par 71 despite the rain and wet course, Duke University's golfers continued their unbeaten ways here this afternoon by turning back Georgia's Bulldogs 1-2 to 6-12.

The summary: Individual play, Perry, Duke (3), defeated Fehr, Georgia (2), defeated Dugree (1), Little, Georgia (1), defeated Pos. Glagola, Duke (3), defeated Hodgson (2).

Baseball Wins In Track Meet.
ATHENS, Ga., April 10.—Over a rain-swept track Georgia's "Bulldog" Packard was clocked in 10 seconds flat for the century and 0:27 1/2 in the 220-yard dash as he made his initial home stand in a triangular meet which the Georgia frosh won here Friday afternoon.

Coch Wiggins Baskin's frosh team averaged 78 1/2 points. The High rang up 38, and Athens High gained 10-12 points.

Packard pulled a muscle in the curve in the 220-yard dash, but despite this handicap he coasted to victory. His performance in scoring 10 points to tie with Rex Saffold, a senior, was the best of the meet.

TARZAN AND THE LEOPARD MEN No. 90

When Lumini demanded that Kall Swana signal her approval of the white man's sacrifice, the leopard-striking girl rebelled. "No!" she cried. Lumini smiled. "Then you wish to be devoured by the Leopard God." Old Timer heard, and whispered now to the girl.

"Do as he says. They'll kill me anyway. And if you go along with them, you might escape later." Kall Swana knew he was right. For her own life she cared little, but upon her survival depended the happiness of another—the man she had come to Africa to find.

Slowly she raised her hand, amid the husky cheers of the assembly. Then Lumini and the Leopard King spoke once more to each other, but Old Timer was no longer impressed, for he realized that the supreme leader of the Leopard Clan was an accomplished ventriloquist.

Quickly now great cooking pots were set up to receive the flesh of the white man. But in all the excitement one Leopard Man was calm. That one was ambitious Bobolo, who was evolving a crafty scheme—a scheme which was destined to confuse Tarzan's vital plans.

**RICHARD W. WALKER,
EX-U. S. JUDGE, PASSES****Distinguished Southerner
Succumbs to Heart Ills
After Auto Crash.**

HUNTSVILLE, Ala., April 10.—(AP)—Richard W. Walker, jurist, lawyer, and member of a distinguished southern family, succumbed here today to a heart ailment. He was in his 80th year.

By appointment of President Wilson, Walker served 16 years as a presiding judge of the fifth circuit court of appeals, at New Orleans.

He was injured slightly about two weeks ago in an automobile accident while returning to his home here from New Orleans. Though retired from active duties, he frequently sat with the circuit court at New Orleans when an extra judge was needed.

Born at Florence, Ala., he was educated at Princeton, Washington and Lee and Columbia. His family moved to Huntsville when he was nine and upon completion of his academic study, Walker set up his law office here.

In 1891 Governor Thomas G. Jones appointed him a justice of the Alabama supreme court. Later, Governor Emmett O'Neal named him presiding judge of the Alabama court of appeals. He was a member of the Alabama constitutional convention in 1901.

Walker, between terms of public service, practiced law here with his uncle, General Leroy Pope Walker, secretary of war of the Confederacy, and later with Judge David D. Shelby and the late Robert E. Spragens.

President Wilson appointed him to the federal circuit court in 1914. He retired in 1930, but continued his interest in affairs of the court.

Surviving were his wife, a brother, Percy H. Walker, of Washington, D. C., and a nephew, Richard W. Walker, of Frederick, Md.

GARLAND P. TARRANT.

TUSCALOOSA, Ala., April 10.—(AP)—Garland P. Tarrant, 81-year-old educator who said he taught Latin to Vice President John Garner and Senator Tom Connally, of Texas, died here last night of influenza.

Tarrant, conducted an academy in Blossington, Texas, for many years. He returned to his old home at Taylorville, near here, 10 years ago.

LEOPOLD VON HOESCH.

KILLED IN ALABAMA****Highway Reorganization
Bill Reported Out in
South Carolina.**

By the Associated Press.

Taking a stand against additional taxation, the Alabama house of representatives killed four proposals to levy a tax on gasoline, alcohol, and soft drinks today.

The move brought the displeasure of Representative A. L. Hanks, of Talladega, who tendered his resignation, complaining he could "see no possibility of probability of working out anything that would redound to the benefit of the suffering masses."

A free conference committee of the South Carolina legislature reported out a highway reorganization bill revised to eliminate all control by Governor Olin Johnston over the commission he fought so long.

The measure would transfer selection of the commissioners from the Governor to legislative delegations.

TWO DIE IN HOME

**Grandfather and Girl Pass
at Statesboro.**

STATESBORO, Ga., April 10.—(AP)—T. E. Girardeau, 15-year-old resident of Bulloch county, dropped dead at his home here today as he answered a summons to the room where his 13-year-old granddaughter lay ill. The girl, Irene Girardeau, died 10 minutes later.

Funeral services for the grandfather and the girl, to whom he had shown deep devotion, will be held at the New Hope church, 10 miles east of here, tomorrow morning at 11 o'clock.

WILKES-BARRE, Pa., April 10.—(AP)—"Easter gift" bombs, sent through the mails, killed one man, and injured four others, and spread terror through this anthracite valley today. Mine labor disunion was suspected.

A judge and a former sheriff were among those the terrorists marked for death. Others believed on the mailing list were a labor disunion empire and a mine superintendent.

A haunting fear of additional explosions gripped the valley while postal inspectors sought other packages. At least six were mailed, they announced.

The inspectors said a bungled address probably resulted in the death of Michael Gallagher, 70-year-old cemetery caretaker and school director. Expressing the belief the bomb was intended for another man of a similar name who figured in a recent mine dispute.

Gallagher met instant death as he smoldered under the package in his Hanover township home. Clifton Lehman, 35, his son-in-law, was critically hurt.

Thomas Maloney and two of his children were injured in another explosion. Hospital physicians feared Maloney's sight was destroyed.

One bomb, addressed to Judge Benjamin R. Jones, of Luzerne county, was intercepted at the postoffice. Another, to former Sheriff Louis Kniffen, failed to explode.

Harry Goulston, superintendent of the Glen Alden Coal Company, got a fifth package at his Kingston home. A sixth apparently was intended for James A. Gorman, a mine official.

Every available postal inspector in the east was ordered to Wilkes-Barre. Hasty inquiry by the government agents strengthened the belief the bombs were sent by a demented man, probably a resident of the Wyoming territory.

The inspectors traced five of the bombs to a mail box where a mail truck driver reported picking up the packages last night.

**N. Y. PUBLIC OFFICIALS
GUARDED AFTER BOMB SCARE.**

NEW YORK, April 10.—(AP)—New York public officials were guarded tonight following a bomb scare that originated in Pennsylvania where a blast killed one man and injured four others.

The alarm followed word from the Pennsylvania state police at Wilkes-Barre that a mail box where a mail truck driver reported picking up the packages last night.

Police here immediately sent radio calls to warn all postoffices of the danger. Others hurried to the homes of public officials.

Ulmans Has Been Prime Minister of Small Country Since 1934.

RIGA, Latvia, April 10.—(AP)—Karlis Ulmanis, who once studied at the University of Nebraska, Lincoln, joins tomorrow the list of full-fledged dictators in European governments.

Since 1934, when he led a coup d'etat which put Latvia under martial law, the heavy-shouldered Ulmanis, son of a farmer, has been a virtual dictator of Latvia, with the official title of prime minister.

Tomorrow, with the expiration of the mandate of President P. Kulis, he will by law assume the functions of president as well as a decisive step toward the concentration of state power in the hands of one leader.

He is to continue in this role, under the newly published laws, until the Latvian constitution has been reformed.

His hold on the Latvian government and his authority over this nation of 2,000,000 people is now indisputable. His government has the backing of the military and the strong or civil guards, although there is little or no visible expression of force.

A trained agriculturist, Ulmanis found his way to Latvia by emigrating to America because of his pro-war activities in the Latvian independence movement (from Russia).

He returned home in 1913, after several years in the United States for five years, part of that time studying and lecturing at the Nebraska University.

In October, 1918, he became the first prime minister of Latvia, and since that time has held a similar office in eight Latvian cabinets, several times combining that office with the one of foreign minister.

Heavy problems confront the Latvian dictator for the future, especially in international affairs. A possible Russo-German war very likely would find Ulmanis in a difficult position, with the possibility of being made into a "theater of war" between two powerful nations.

**EX-NEBRASKA STUDENT
IS DICTATOR OF LATVIA****Ulmans Has Been Prime Minister of Small Country Since 1934.**

RIGA, Latvia, April 10.—(AP)—Karlis Ulmanis, who once studied at the University of Nebraska, Lincoln, joins tomorrow the list of full-fledged dictators in European governments.

Since 1934, when he led a coup d'etat which put Latvia under martial law, the heavy-shouldered Ulmanis, son of a farmer, has been a virtual dictator of Latvia, with the official title of prime minister.

Tomorrow, with the expiration of the mandate of President P. Kulis, he will by law assume the functions of president as well as a decisive step toward the concentration of state power in the hands of one leader.

He is to continue in this role, under the newly published laws, until the Latvian constitution has been reformed.

His hold on the Latvian government and his authority over this nation of 2,000,000 people is now indisputable. His government has the backing of the military and the strong or civil guards, although there is little or no visible expression of force.

A trained agriculturist, Ulmanis found his way to Latvia by emigrating to America because of his pro-war activities in the Latvian independence movement (from Russia).

He returned home in 1913, after several years in the United States for five years, part of that time studying and lecturing at the Nebraska University.

In October, 1918, he became the first prime minister of Latvia, and since that time has held a similar office in eight Latvian cabinets, several times combining that office with the one of foreign minister.

Heavy problems confront the Latvian dictator for the future, especially in international affairs. A possible Russo-German war very likely would find Ulmanis in a difficult position, with the possibility of being made into a "theater of war" between two powerful nations.

FUNERAL RITES TODAY FOR INDIAN FIGHTER

WASHINGTON, April 10.—(AP)—The body of L. Q. C. Lamar, whose father was an associate justice of the supreme court, will be taken to the funeral home in Oak Hill cemetery, pending removal to Oxford, Miss., his former home.

Lamar was an Indian fighter shortly after the Civil War, serving under General Nelson A. Miles. He later was his father's secretary during the latter's second term as governor of Mississippi. He was secretary of the Mississippi state assembly at Jackson, Miss., and was a member of the Mississippi legislature.
